

KATRINA'S MYSTIC VISITORS GUIDE

iPhone User Guide — every feature, every screen, every control

Historic Salem · Edition of 19 October 2026 · Destructive AI Gurus, LLC

Contents

Part 1 — Welcome to Salem

1.1 What this app is · 1.2 What we are trying to do · 1.3 How it works, in one minute · 1.4 What you need · 1.5 Your privacy

Part 2 — The Features

2.1 Stories that find you · 2.2 Taking a tour · 2.3 Simulate Walk · 2.4 The map's round buttons · 2.5 Katrina's Collection · 2.6 The Salem Witch Trials of 1692 · 2.7 Find · 2.8 Old Maps · 2.9 Souvenir photos · 2.10 Your home point

Part 3 — Every Screen and Control

3.1 First launch · 3.2 The welcome hub · 3.3 The map · 3.4 The top bar · 3.5 The round buttons · 3.6 Zoom and gestures · 3.7 The Menu · 3.8 The NOW NARRATING bar · 3.9 The place card · 3.10 Walking directions · 3.11 Audio controls · 3.12 Find · 3.13 Walking Tours · 3.14 Katrina's Collection · 3.15 The Salem Witch Trials · 3.16 Old Maps · 3.17 Map Legend · 3.18 Pictures and the camera · 3.19 About and Help · 3.20 Messages you may see

Part 4 — Step-by-Step Demos

4.1 Take a guided tour on foot · 4.2 Preview a tour from your sofa · 4.3 Find a place and walk there · 4.4 Read and hear today's Oracle · 4.5 See Salem in 1851 · 4.6 Catch your first ghost · 4.7 Take a souvenir photo

Part 5 — Help

5.1 Troubleshooting · 5.2 Quick reference · 5.3 Credits

Part 1 — Welcome to Salem

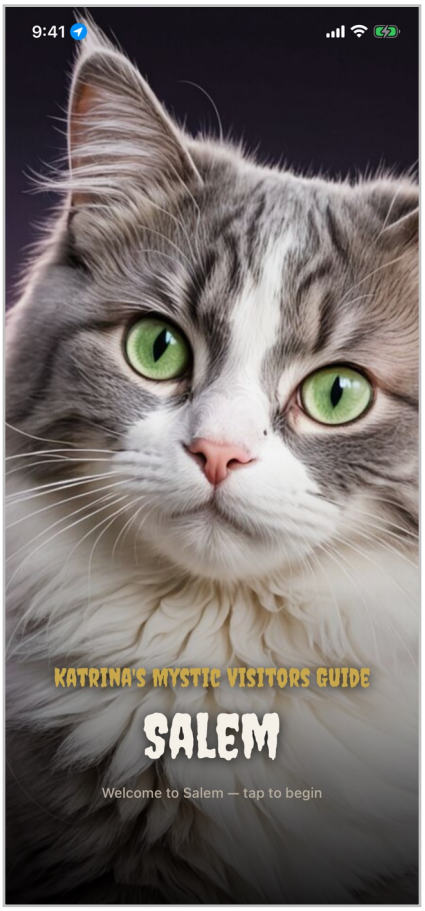

What the guide is, what it is for, and how it works.

1.1 What this app is

Katrina's Mystic Visitors Guide is a walking companion for historic Salem, Massachusetts. You walk the streets; the places around you speak. When you come near a place with a story, it is told to you — the building in front of you, the people who lived there, and what happened in Salem in 1692 — without you having to look at the screen.

Katrina is your guide. In the app's own words: walk near a place and Katrina tells you its story — and its ghost joins your Collection.

> **About the voices.** In the app's own words (About → Credits & attribution): "Narration in this app is built from real voices — AI-simulated, with permission, from the narrators' own recordings." The narrators introduce themselves on the Our Voices screen (3.1).

The title screen

The welcome hub — three ways into Salem

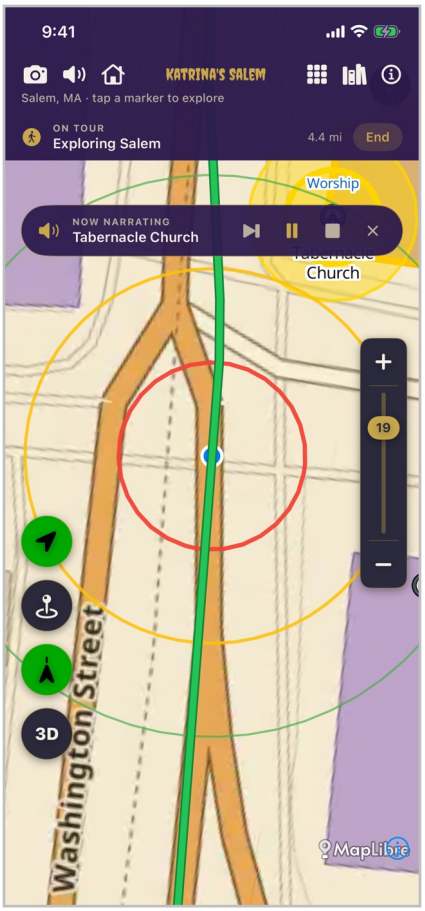

1.2 What we are trying to do

Salem is one of the most storied small cities in America, and most visitors only ever see a fraction of it. This guide gives you a taste of what is here — the architecture, the people, the 1692 witch trials, the sea captains and the merchants — told on the spot. It is meant to send you towards the real Salem: its museums, its historic houses, its guides and its shops — not to replace them.

- **Take nothing.** There is no account, no sign-in and no tracking; nothing you do in the guide leaves your phone (About → Privacy).
- **Give first.** The map, the photographs, the stories and every voice are on your iPhone from the moment the guide is installed. It works fully offline.
- **Tell it straight.** The narrators tell you who they are and how their voices were made (Our Voices, 3.1).

1.3 How it works, in one minute

1. **Open the guide in Salem.** It asks for your location once. In Salem the map starts following you by itself.
2. **Walk.** When you come close to a place with a story, the NOW NARRATING bar appears at the top of the map and the story begins. Keep walking — or stop and listen.
3. **Tap the bar** to open the place's card: its picture, its story, Listen, and Directions.
4. **Want a plan?** Tap the 9-dot Menu and choose Tours. Pick a walking tour and follow its route; the stories play as you reach each place.
5. **Not in Salem yet?** Choose Simulate Walk in the Menu. The guide walks a tour for you, so you can hear it from anywhere.
6. **Collect ghosts.** Each historic place you hear joins Katrina's Collection (the books icon in the top bar).

A story playing — the NOW NARRATING bar

Its card

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

1.4 What you need

- **An iPhone with iOS 16 or later.**
- **Location set to "While Using the App", with Precise Location on.** In the guide's own words: "Narration senses the sites you approach, which needs your precise location."
- **Your volume up.** The Ring/Silent switch does not silence the narrators — the volume buttons do. While a story plays, music from other apps is turned down.
- **Headphones, or a low speaker volume** — enough to hear the story and the traffic.
- **No mobile data and no Wi-Fi.** "Salem Tours works fully offline — the whole map and every tale live on your phone." (About)

1.5 Your privacy

In the app's own words (About → Privacy): "Salem Tours runs entirely on your device. There is no account, no sign-in, and no tracking — nothing you do here leaves your phone."

- **Your age range** — in the app's own words (About → Privacy): "Because some US states require it, the app may also ask Apple for your age range (Apple may ask you to share it). The answer stays on your iPhone, is used for nothing else, and is not kept."
- **Our privacy policy** — About → Privacy → Privacy Policy opens it on the web (destructiveaigurus.com/privacy/apps/), in Safari.
- **Your location** is used on your iPhone only. When the guide first asks for it, it says why: "Your location never leaves this phone — it is how Salem knows when to speak."
- **Your Collection, your favourites and your pictures** are kept in the guide on your iPhone. A picture goes to your Photos only when you tap Save to Photos.
- **Website, Call and Email** on a place's card hand you over to Safari, Phone or Mail — at that point you are leaving the guide.

Part 2 — The Features

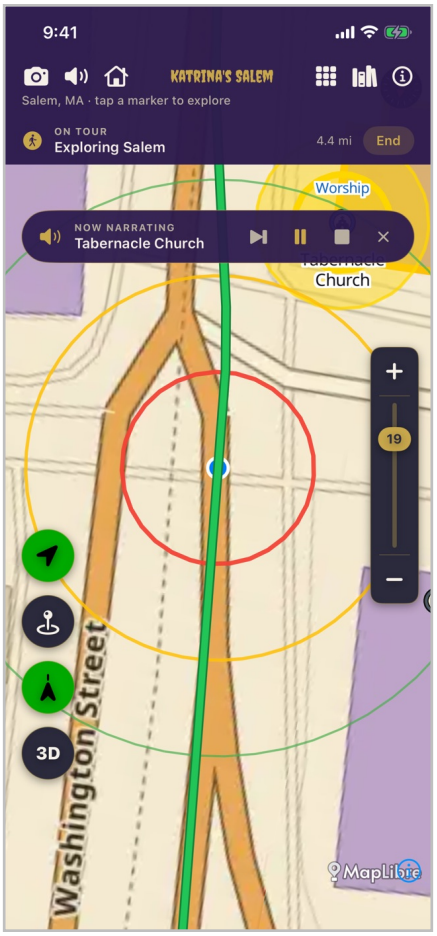

Everything the guide can do, in plain language. Part 3 shows every button in detail.

2.1 Stories that find you

You do not have to start anything. With the guide open and your location on, it listens for the places around you. When you come within announce range of a place, it speaks — its name first, then its story.

- **The NOW NARRATING bar** shows the place speaking. When several places are close together they wait their turn, and the bar counts them: "N more nearby". Tap the bar for the place's card.
- **How close?** The announce range: Red 10 m · Yellow 20 m · Green 30 m. Historical stories start at Yellow 20 m; every other place at Red 10 m.
- **No repeats.** A place you have heard — whether it finished or you skipped it — stays quiet for two hours, so you can wander back and forth without hearing it again. To hear it sooner, open its card and tap Listen.
- **Start fresh.** Reset 2 hr cooldown (Audio controls) lets every place speak again; Reset collection (Collection → Badges) also starts your Collection over.

> **You are in charge of what talks.** The speaker icon in the top bar opens Audio controls: Narration sound turns every voice on or off; below it, choose which kinds of places speak, how close you must be, and how much you hear.

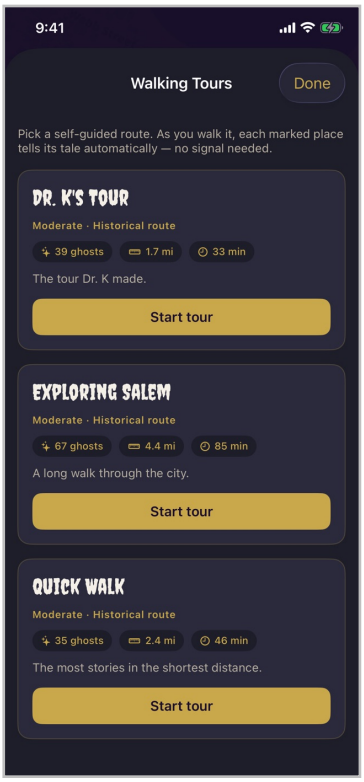

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

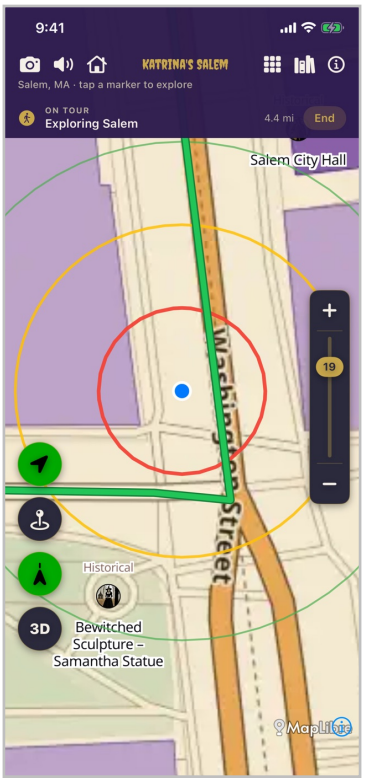

2.2 Taking a tour

A tour is a walking route through Salem, drawn on the map. As you reach the places along the way, their stories play.

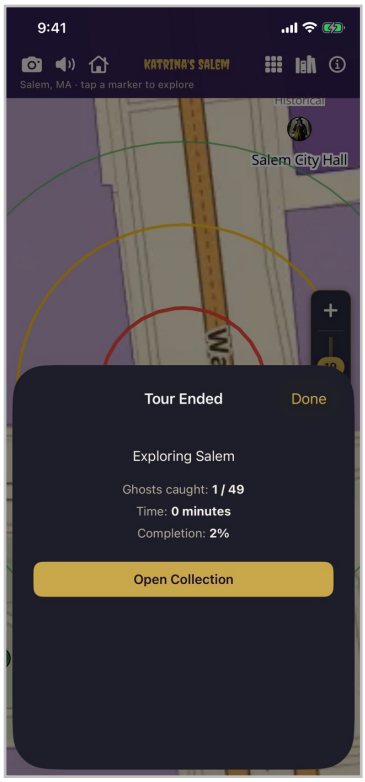

- **Choose one:** Menu → Tours, or Guided Walking Tours of Salem on the welcome hub. Each card shows the tour's ghosts (the historic places it passes), its length and about how long it takes.
- **Start it:** tap Start tour. In Salem, with the map following you, the guide asks where to begin — Take me to the start (walking directions to the first stop), Start right here (when you are on the route) or Start at the closest point.
- **Away from Salem, or with GPS off,** it asks instead: "Would you like Katrina to walk this tour for you?" — Yes, walk it for me starts a Simulate Walk from the first stop; No, show me the whole route draws the route on the map.
- **While it runs,** the ON TOUR bar under the top bar shows the tour's name and length, with End.
- **Pause or end:** open Tours again — Open Collection · Pause · End tour. A paused tour shows PAUSED, with ▶ Resume.
- **Remembered:** a tour left running comes back PAUSED next time, and the welcome hub offers Continue Tour.
- **The summary:** when a tour ends you see Ghosts caught, Time and Completion — Tour Complete! when you heard every ghost.

Walking Tours

ON TOUR

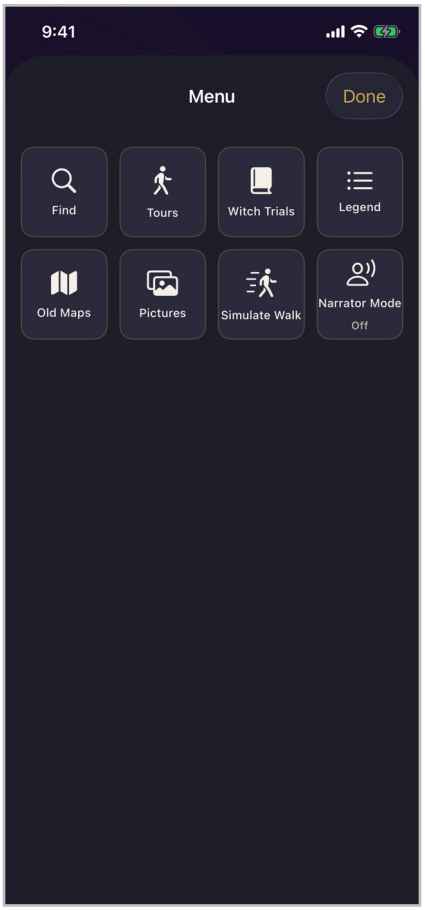

The summary

2.3 Simulate Walk

Simulate Walk lets you hear a walk without taking it — at home, on the train, in your hotel. A walker moves along the route at walking pace, and the stories play as it reaches each place, just as they would on foot.

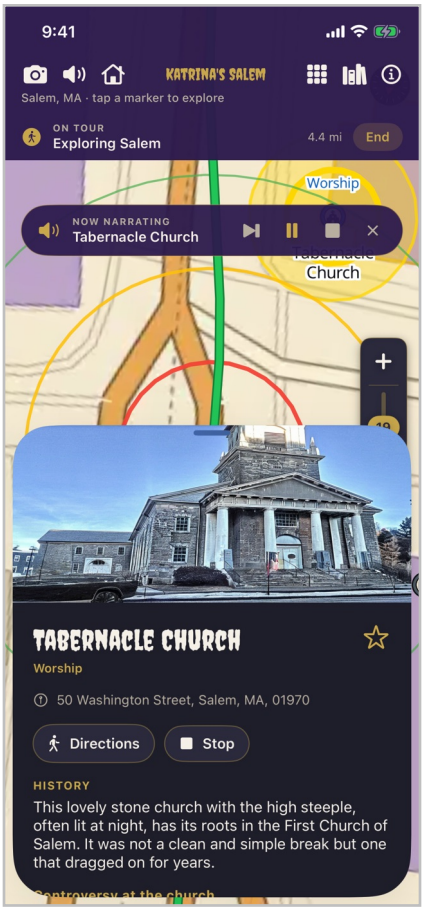

- **Start it:** Menu → Simulate Walk. With a tour running, the walk follows that tour. With no tour but walking directions on the map, it walks you to that place. With neither, the Walking Tours list opens — pick a tour and the walk starts on it.
- **Stop it:** tap Simulate Walk again, or tap Home. Started again, it carries on from where it stopped.
- **Ghosts count:** places heard on a simulated walk join your Collection, just as on foot.

Menu → Simulate Walk

A place speaks as the walker arrives

2.4 The map's round buttons

Four round buttons sit at the bottom left of the map; the zoom control is on the right.

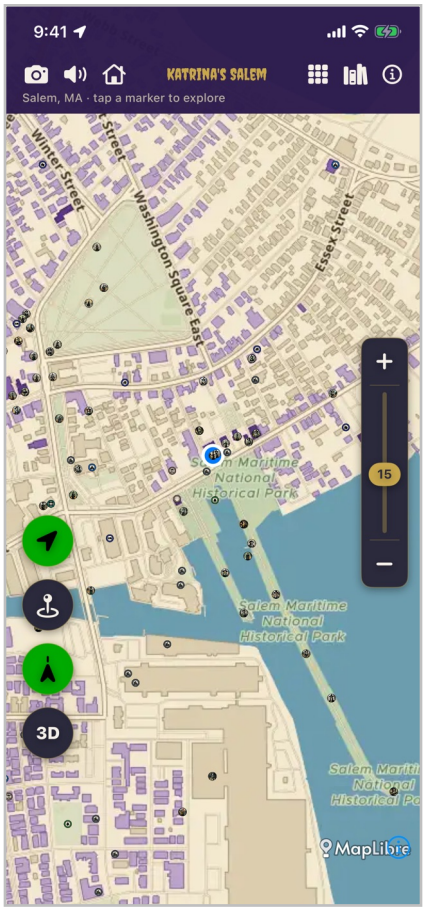

GPS — follows your real location. Green while following; tap again to look around freely. In Salem it starts by itself. Yellow means your iPhone's location for the guide is off or approximate — tap it and the guide explains.

Places (the pin) — tap to show every place, shops and services included, or only the historic sites. Touch and hold to choose the POI layers. Gold while every place is shown.

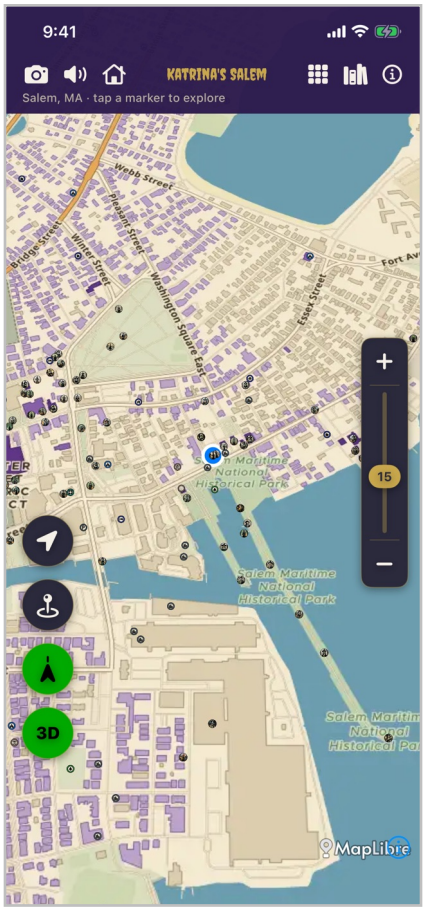

Heading up — turns the map so the way you are facing points up. It starts on (green); tap for north up.

3D — tilts the map into a walking view. Each tap leans it further — 30°, 36°, 42°, 48° — then back to flat.

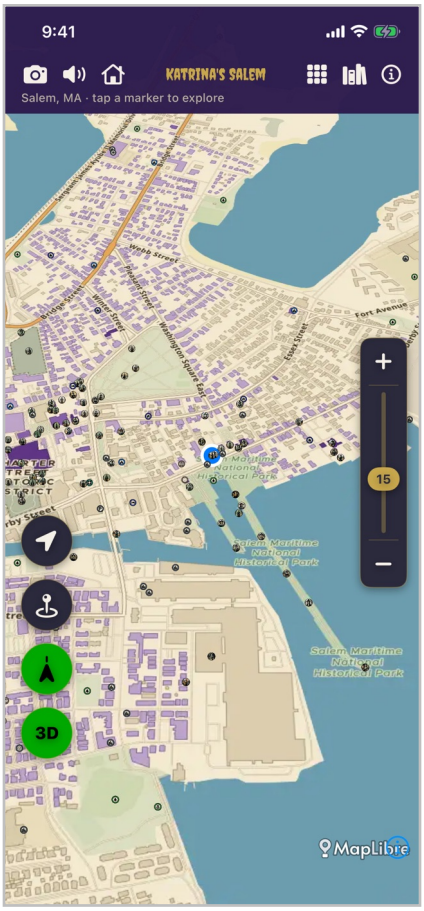

Zoom — + and − move one level; the number is the zoom level; drag the slider up to zoom in, down to zoom out.

Flat

3D — 30°

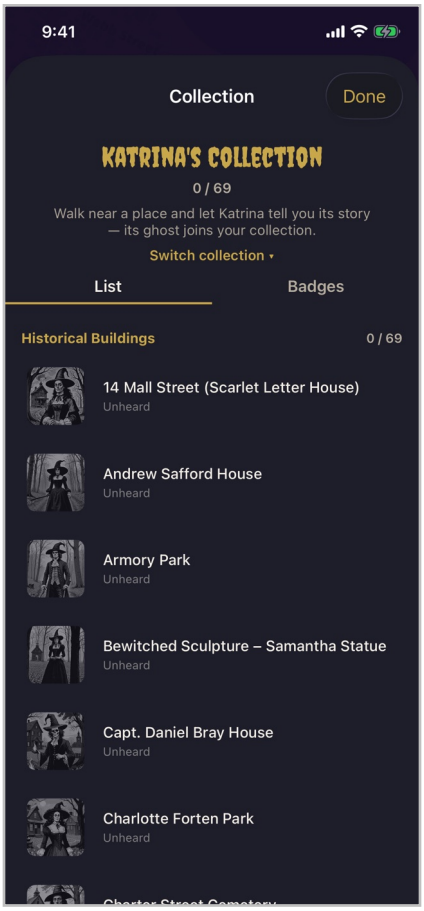

3D — 42°

2.5 Katrina's Collection

Each historic place with a ghost joins your Collection when you hear its story — 69 ghosts in all. Ghosts you have heard show in colour; the rest wait in grey.

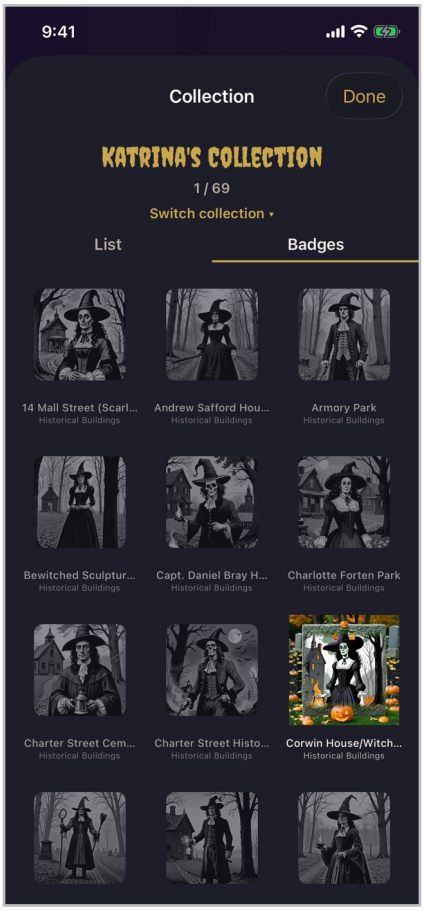

- **Open it** with the books icon in the top bar. During a tour, Menu → Tours → Open Collection shows that tour's ghosts.
- **Switch collection** ▾ moves between All and each tour; the counter (for example 0 / 69) shows how many you have caught.
- **List** shows every ghost, grouped by kind of place, marked Heard or Unheard; **Badges** shows them as portraits.
- **Reset collection,** at the end of Badges, clears your Collection — after you confirm — so places tell their stories again.

The Collection

Switch collection

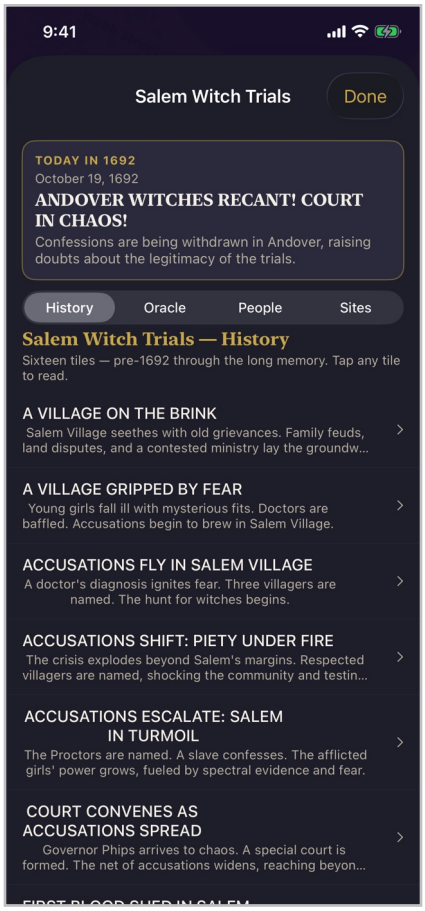

Badges

2.6 The Salem Witch Trials of 1692

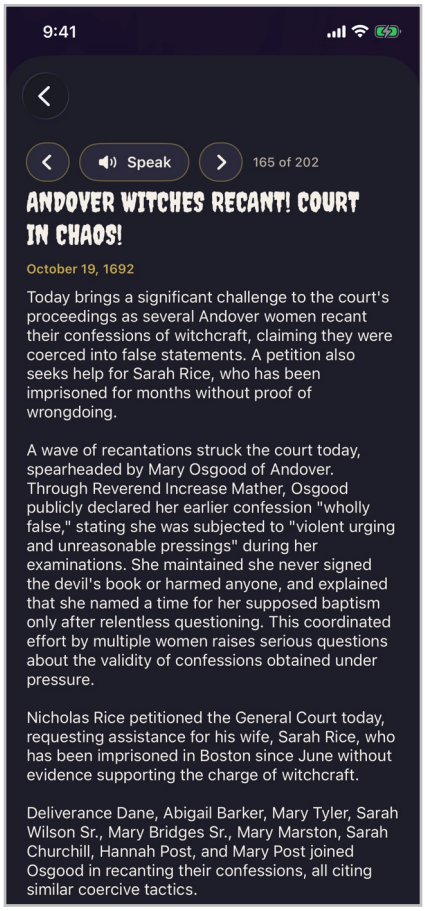

A history library, from the Menu (Witch Trials) or the welcome hub. At the top, Today in 1692 shows the Oracle's dispatch for today's date in 1692 — or the nearest one ("Near this day in 1692"). Below it, four sections:

- **History** — the story in sixteen chapters, from the village before 1692 to the long memory after it.
- **Oracle** — the crisis as a period newspaper: 202 dispatches, November 1691 to May 1693, filtered by phase.
- **People** — forty-nine principal figures — judges, accusers, accused, clergy — each with a portrait and biography.
- **Sites** — the historic sites of Salem, filtered by era.

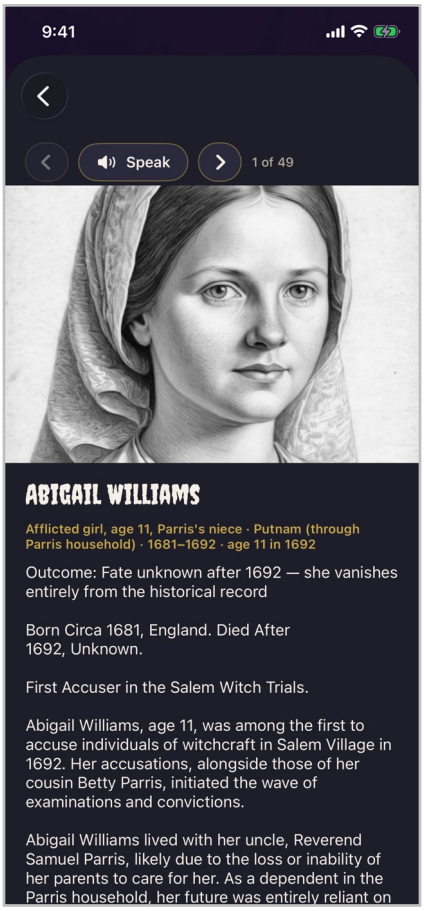

Every page can be heard: tap Speak. ‹ and › step to the page before or after. Turn on Narrator Mode (Menu) and History, Oracle and People pages start reading as they open.

The library

Today in 1692

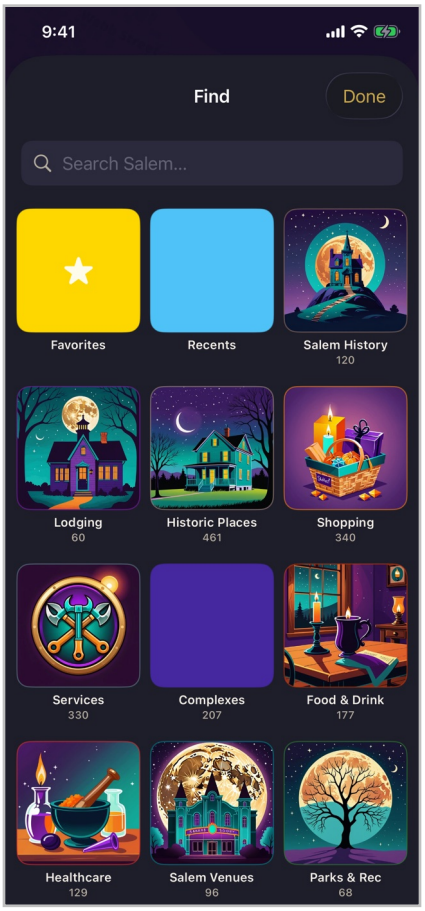

A person

2.7 Find

Find is the guide's directory: every place on the map, sorted into picture tiles — Salem History, Historic Places, Food & Drink, Shopping, Lodging and more — plus your Favorites and Recents.

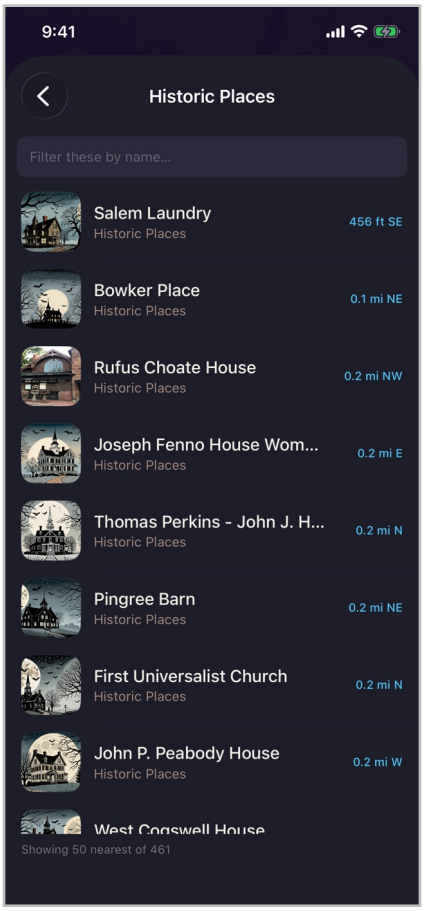

- **Search:** type in "Search Salem…" — a name, or a word like coffee, restroom or witch trials.
- **Browse:** tap a tile, then a type (or All); the nearest places come first, with how far and which way.
- **Use a result:** tap it to open its card; touch and hold it to see it on the map.

Find

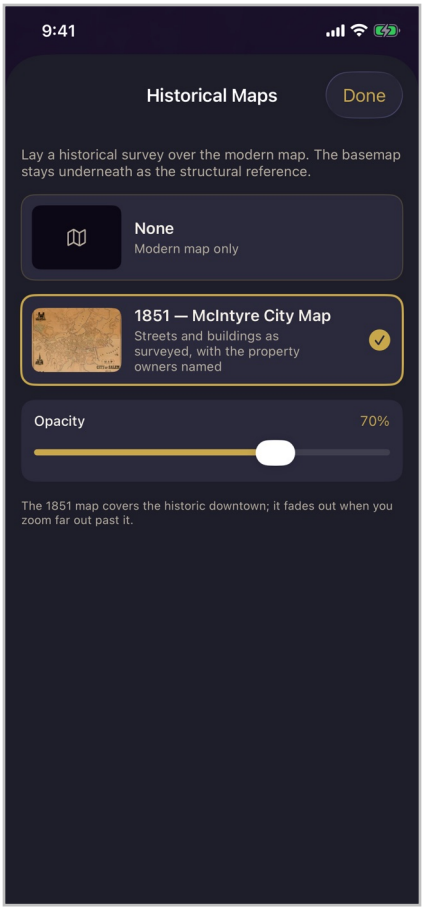

A tile and its types

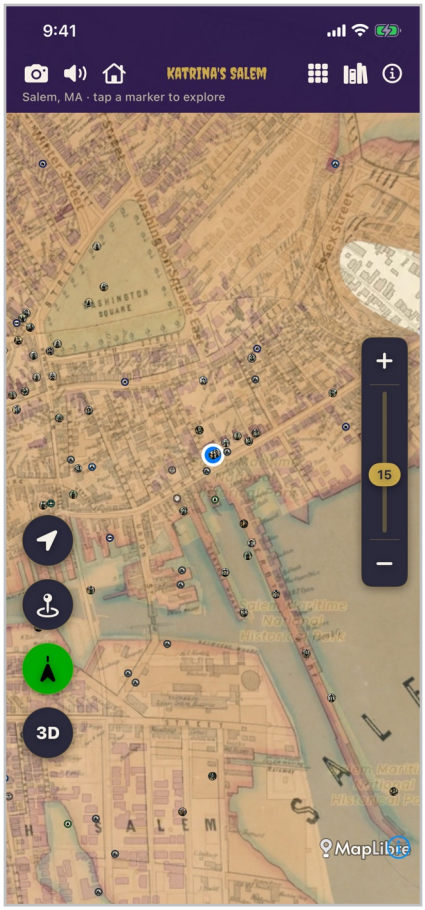

The nearest results

2.8 Old Maps

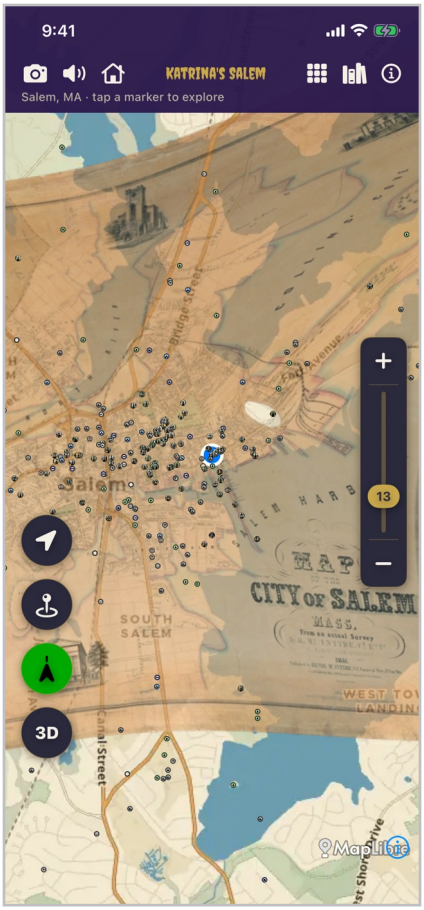

Lay Henry McIntyre's 1851 city map of Salem over today's streets: Menu → Old Maps → 1851 — McIntyre City Map. Opacity sets how strongly it shows (70% at first). It covers the historic downtown and fades out when you zoom far out. Your position, the places, tours and directions all keep working on top of it. Choose None for the modern map only.

Old Maps

1851, close up

Leventhal Map & Education Center at the Boston Public Library.

2.9 Souvenir photos

Tap the camera in the top bar to take a souvenir photo of your visit (on iPhones with a camera).

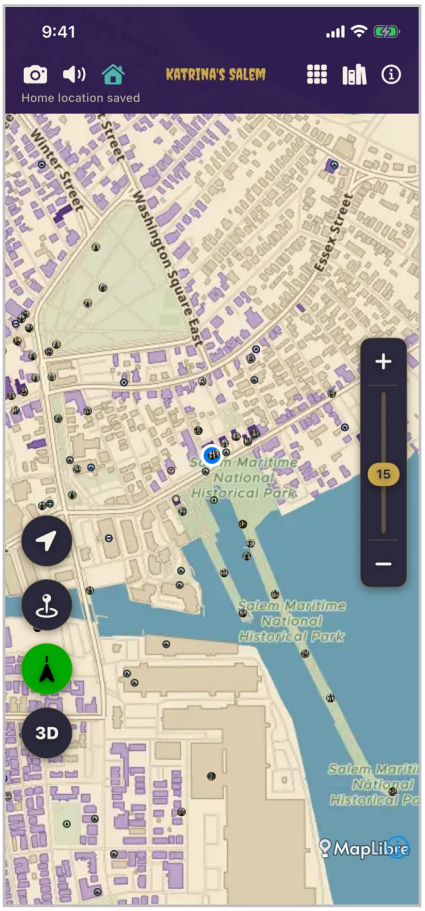

- **After the shot,** "Your photo" shows it — Done keeps it, Discard throws it away.
- **Your pictures** are kept in the guide: Menu → Pictures. Open one to Save to Photos, or to delete it ("Anything already saved to Photos stays in Photos").
- **Effects:** the Effect Studio says "Souvenir effects for your photographs arrive here in a coming update."

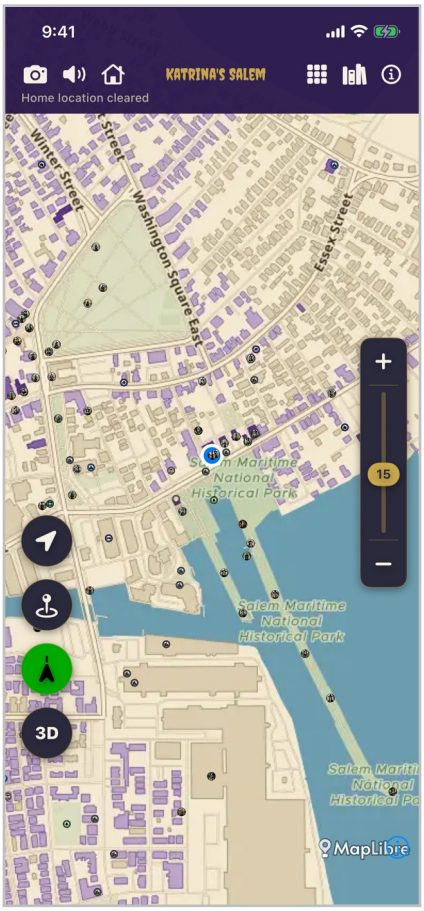

2.10 Your home point

Save a home point — your hotel, your car — and get back to it with one tap.

- **Touch and hold the house** in the top bar: the centre of the map becomes your home ("Home location saved"; the house fills in).
- **Tap the house** to go there. With no home saved, a tap centres the map on you.
- **Touch and hold again** to clear it ("Home location cleared").

"Home location saved"

"Home location cleared"

Part 3 — Every Screen and Control

A complete walk-through, screen by screen. The numbers on each picture match the numbered rows beside it; rows with a grey dot have no number on the picture.

3.1 First launch — the title screen

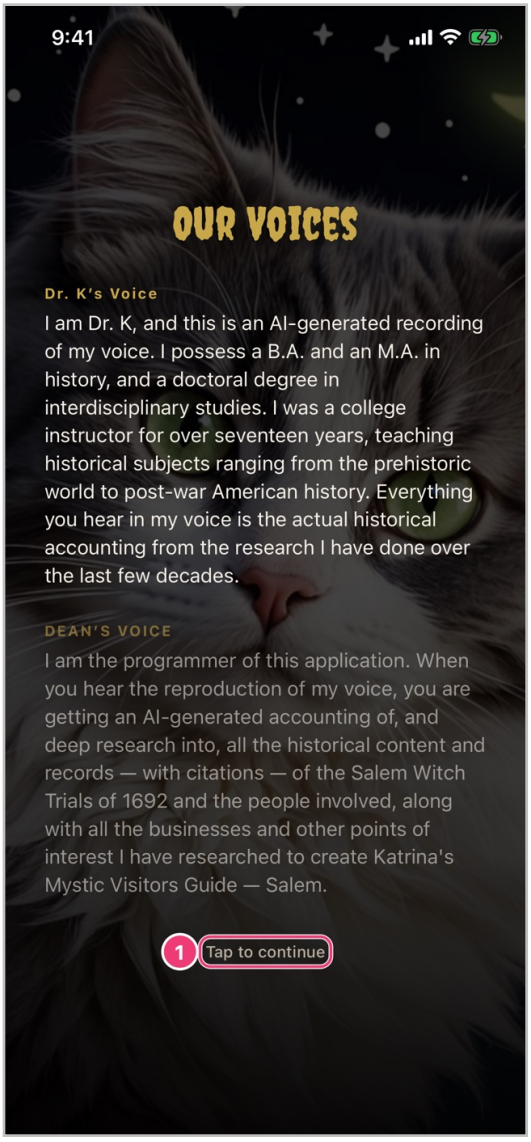

Each time you open the guide, its title screen appears while a short welcome plays.

1. **Tap to begin** — Tap anywhere to go on.

3.1 First launch — Our Voices

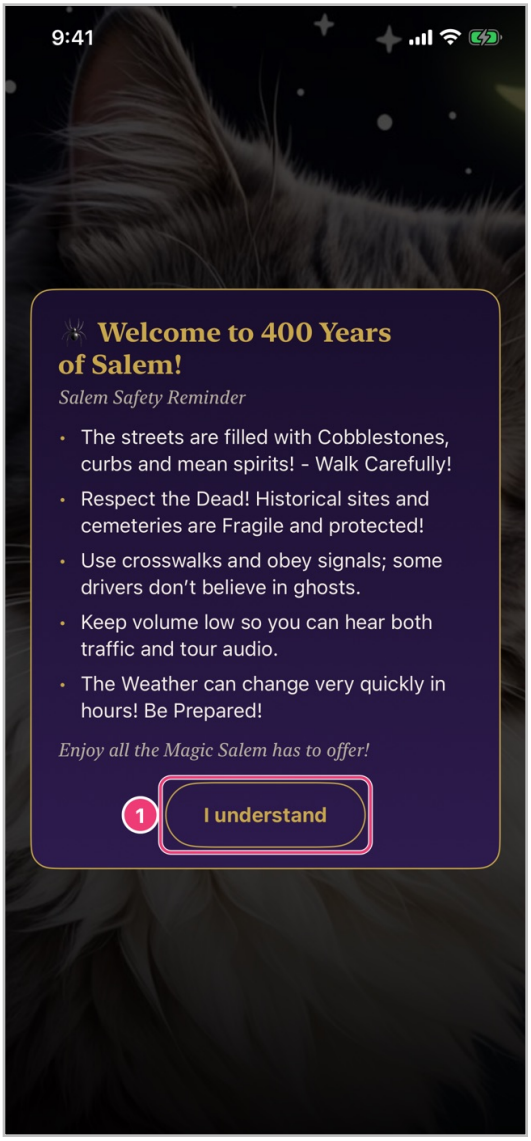

After the title, the two narrators introduce themselves. Each paragraph lights up while its recording plays: Dr. K's Voice — "I am Dr. K, and this is an AI-generated recording of my voice…" — and Dean's Voice — "I am the programmer of this application…".

1. **Tap to continue** — Move on when you are ready; a tap during the recording skips ahead.

3.1 First launch — the Salem Safety Reminder

Read aloud the first time you open the guide — and again whenever its words change: "The streets are filled with Cobblestones, curbs and mean spirits! - Walk Carefully!" · "Respect the Dead! Historical sites and cemeteries are Fragile and protected!" · "Use crosswalks and obey signals; some drivers don't believe in ghosts." · "Keep volume low so you can hear both traffic and tour audio." · "The Weather can change very quickly in hours! Be Prepared!"

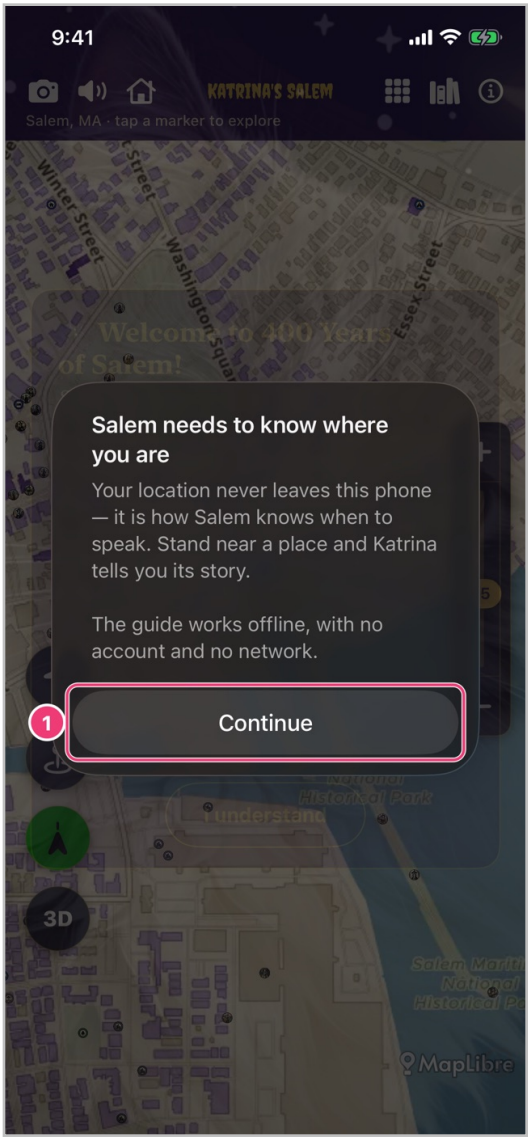

1. **I understand** — Closes the reminder. Read it again any time: About → Salem Safety Reminder.

- **Your age range — some places only** — Where a US state requires it, the guide may ask Apple for your age range, and Apple may ask you to share it (1.5).

3.1 First launch — the location question

The first time, the guide explains why it needs your location: "Your location never leaves this phone — it is how Salem knows when to speak. Stand near a place and Katrina tells you its story. The guide works offline, with no account and no network."

1 **Continue** — Your iPhone then asks for permission (next page).

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.1 First launch — your iPhone's question

This question is your iPhone's own. The guide needs your location while you use it.

- **Allow While Using App** — Recommended: the guide can follow you while it is open.
- **Allow Once** — Location for this visit only; you will be asked again next time.
- **Don't Allow** — The guide still opens, but cannot follow you or narrate places as you walk. Tap GPS later and the guide explains how to turn location on (3.20).

3.2 The welcome hub

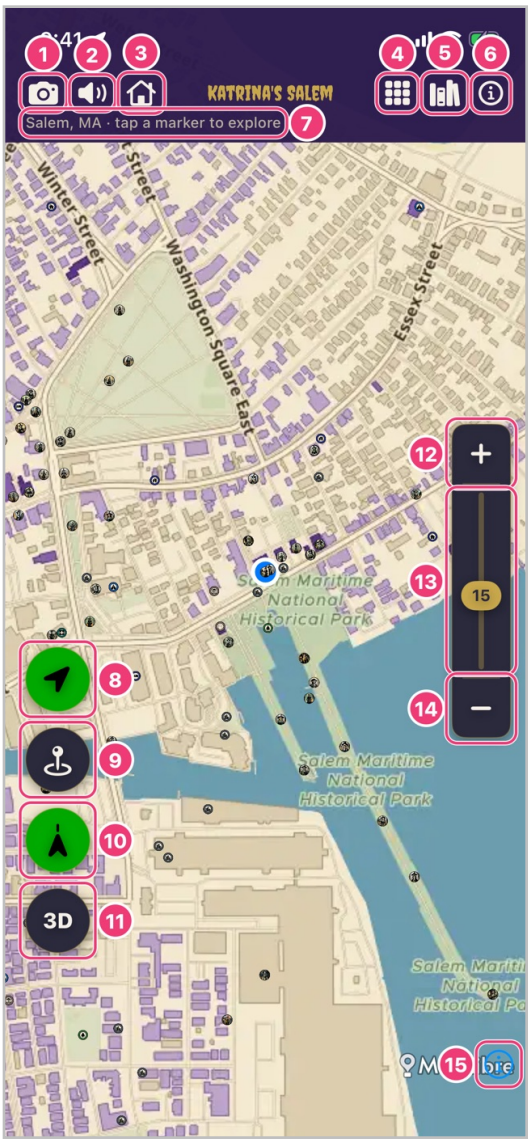

The welcome hub appears each time you open the guide. When a tour is saved, a Continue Tour card appears as well — "<tour> · pick up where you left off". Bring it back any time: About → Show welcome.

1. **Guided Walking Tours of Salem** — "Let Katrina narrate the witch-city streets." Opens Walking Tours (3.13).
2. **The Salem Witch Trials of 1692** — "History, newspapers, and the souls of 1692." Opens the library (3.15).
3. **Explore Salem on Your Own** — "Wander wherever your curiosity leads." Leaves you on the map — the stories find you.
4. **Close** — Straight to the map.
5. **Tip** — "Long-press the map to leap anywhere in Salem." (3.6)

3.3 The map

Salem's map is the heart of the guide. You appear as a blue dot; every marker is a place with a story. Tap a marker to open its card, or simply walk — places tell their stories as you arrive.

1. **Camera** — Take a souvenir photo (on iPhones with a camera).
2. **Audio controls** — What Katrina narrates, how close a place must be, and how much she says (3.11).
3. **Home** — Tap: centre the map on your home point, or on you if none is saved. Touch and hold: save or clear it (3.4).
4. **Menu** — Find, Tours, Witch Trials, Legend, Old Maps, Pictures, Simulate Walk and Narrator Mode (3.7).
5. **Collection** — Katrina's Collection (3.14).
6. **About** — How it works, safety, privacy, help and credits (3.19).
7. **Status line** — "Salem, MA · tap a marker to explore" until there is news; with a GPS fix, your position and speed; short messages for three seconds (3.20).
8. **GPS** — Follow your real location; green while following (3.5).
9. **Places** — Every place, or only the historic sites; touch and hold for POI layers.
10. **Heading up** — The way you face points up; on at first.
11. **3D** — Tilt the map: 30° · 36° · 42° · 48° · flat.
12. **Zoom in** — One level closer.
13. **Zoom slider** — The number is the zoom level; drag up to zoom in, down to zoom out.
14. **Zoom out** — One level further.
15. **Map information** — The map's credits.

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.4 The top bar

Camera — opens the camera for a souvenir photo; shown on iPhones with a camera (3.18).

Audio controls (the speaker) — opens Audio controls (3.11).

Home (the house) — tap: the map flies to your saved home point; with none saved, to your position; with neither it says "No GPS fix yet — long-press Home to set". Tapping Home also stops a Simulate Walk. Touch and hold: the centre of the map becomes home ("Home location saved"; the house fills in) — hold again to clear it ("Home location cleared").

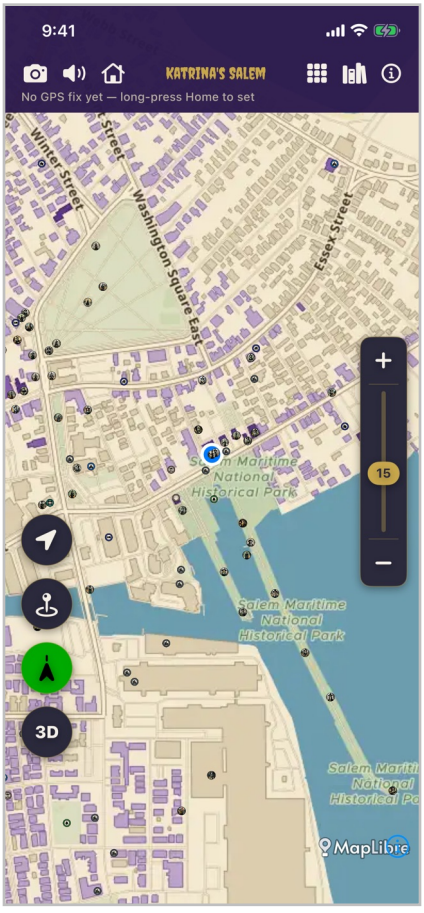

Katrina's Salem — the guide's name.

Menu (nine squares) — opens the Menu (3.7).

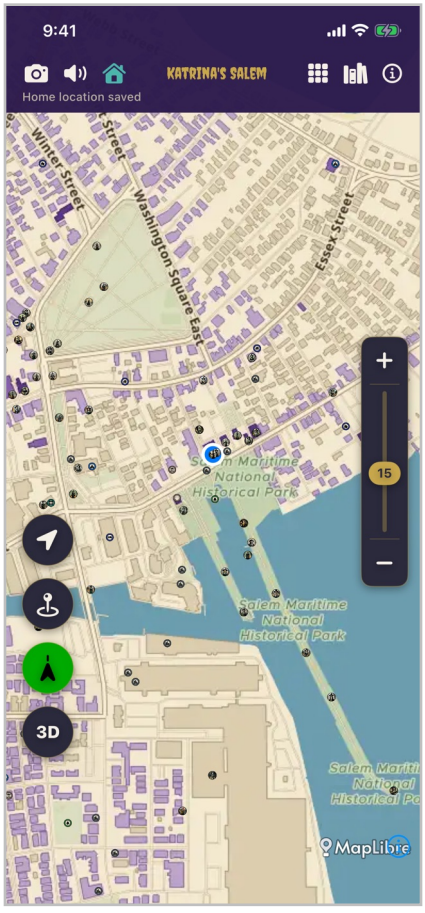

Collection (the books) — opens Katrina's Collection (3.14).

About (ⓘ) — opens About, with Help (3.19).

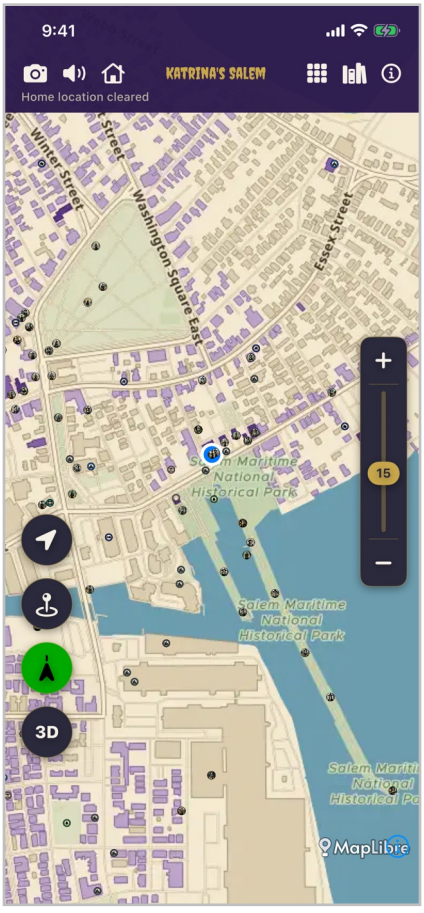

The status line — under the top bar (3.20).

No home, no GPS fix

Home saved

Home cleared

3.5 The round buttons

GPS — on (green): the map follows you and places speak as you reach them. Off: the map stays where you leave it. In Salem the guide starts following you by itself. If your iPhone's location for the guide is off or approximate, the button is yellow; tap it and the guide explains, with Open Settings (3.20).

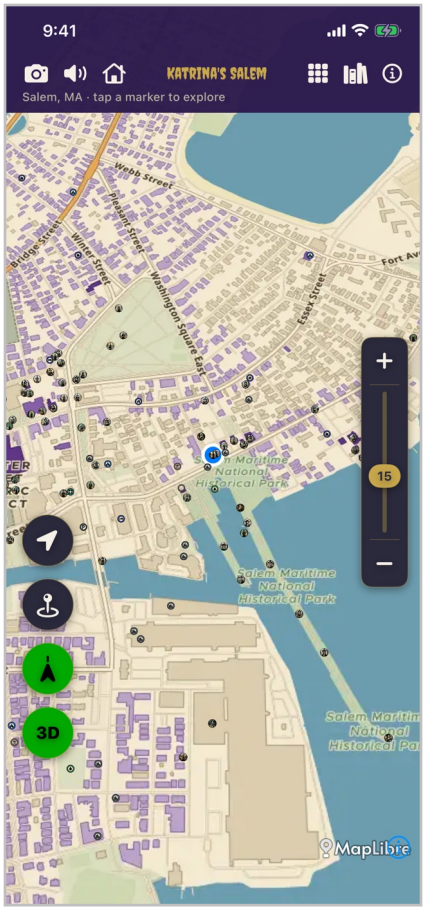

Places (the pin) — tap: every place, shops and services included, or only the historic sites; gold while every place is shown. Touch and hold: POI layers (next page).

Heading up — on (green, the way it starts): the map turns so the way you face points up. Off: north is up.

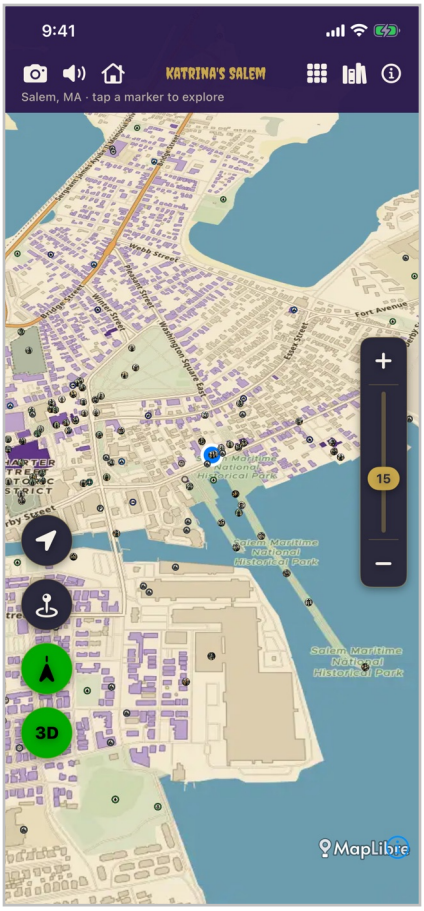

3D — each tap leans the map further: 30°, 36°, 42°, 48°, then flat. Green while tilted.

Flat

30°

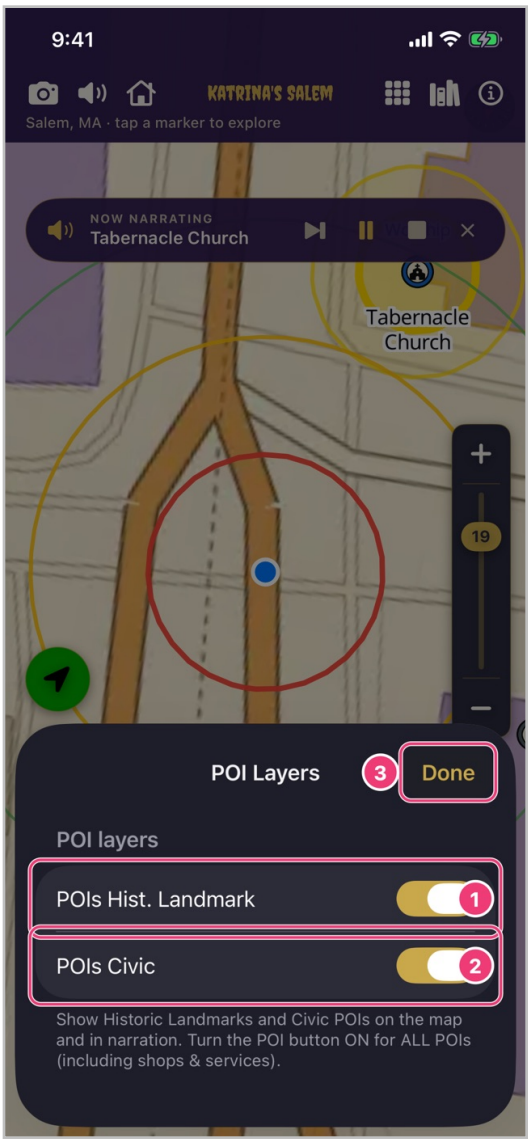

42°

3.5 The round buttons — POI layers

Touch and hold the Places button: "Show Historic Landmarks and Civic POIs on the map and in narration. Turn the POI button ON for ALL POIs (including shops & services)."

1. **Historic Landmarks** — Show and narrate historic landmarks. On at first.
2. **Civic** — Show and narrate civic places. On at first.
3. **Done**

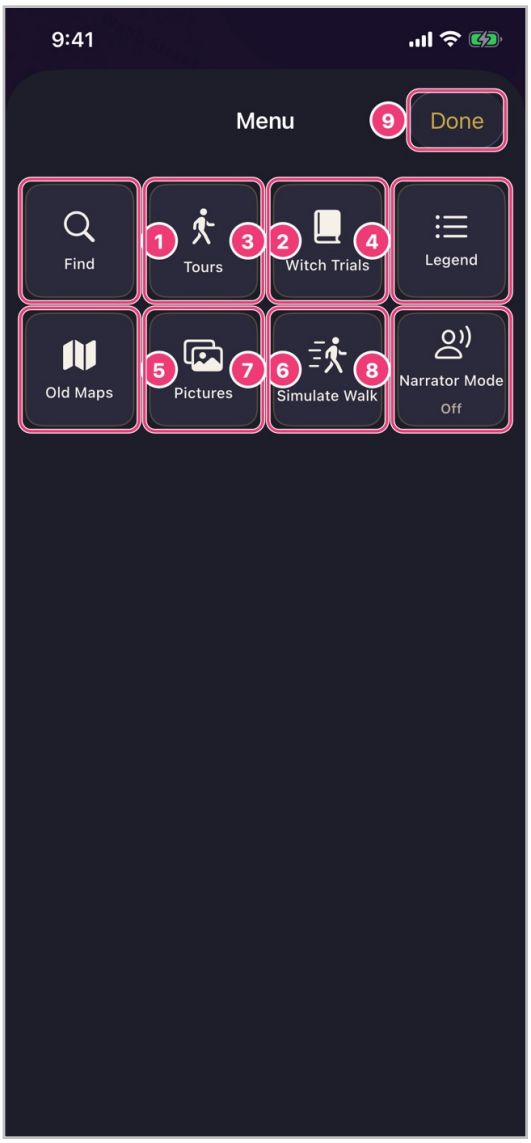

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.6 Zoom and gestures

- **+ and –** zoom one level at a time; the number between them is the zoom level. Drag along the slider to zoom quickly — up is closer.
- **Pinch** with two fingers to zoom; **drag** to move the map.
- **Tap a marker** to open the place's card (3.9).
- **Touch and hold anywhere** to leap there: the guide treats that spot as your position — GPS following stops, and the places around it can speak. Tap GPS to follow your real location again.

3.7 The Menu

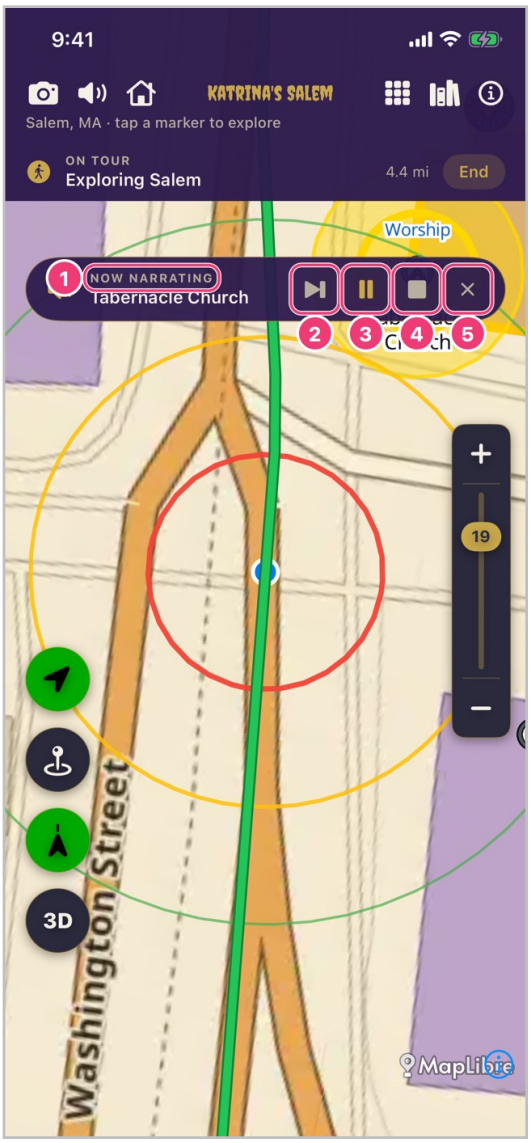

The 9-dot button in the top bar opens the Menu.

1. **Find** — Search Salem, or browse by kind of place (3.12).
2. **Tours** — Walking Tours (3.13). While a tour runs: its menu — Open Collection · Pause or Resume · End tour.
3. **Witch Trials** — History, the Oracle, People and Sites (3.15).
4. **Legend** — What the map's colours and marks mean (3.17).
5. **Old Maps** — The 1851 map over today's streets (3.16).
6. **Pictures** — Your souvenir photos (3.18).
7. **Simulate Walk** — Start or stop a simulated walk (2.3).
8. **Narrator Mode** — On: Witch Trials pages read themselves aloud as they open. The tile shows On or Off; off at first.
9. **Done** — Close the Menu.

3.8 The NOW NARRATING bar

When a place speaks, the bar appears at the top of the map.

1. **Now narrating** — The place speaking. Under its name, "N more nearby" counts the places waiting. Tap the bar to open its card.
2. **Skip** — Move on to the next place waiting.
3. **Pause** — Pause the story; the button becomes Listen — tap it to carry on.
4. **Stop** — Stop the story and clear the places waiting.
5. **Hide** — Hide the bar; the story keeps playing, and the bar returns with the next place. (If the story is paused, this stops it.)

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.9 The place card

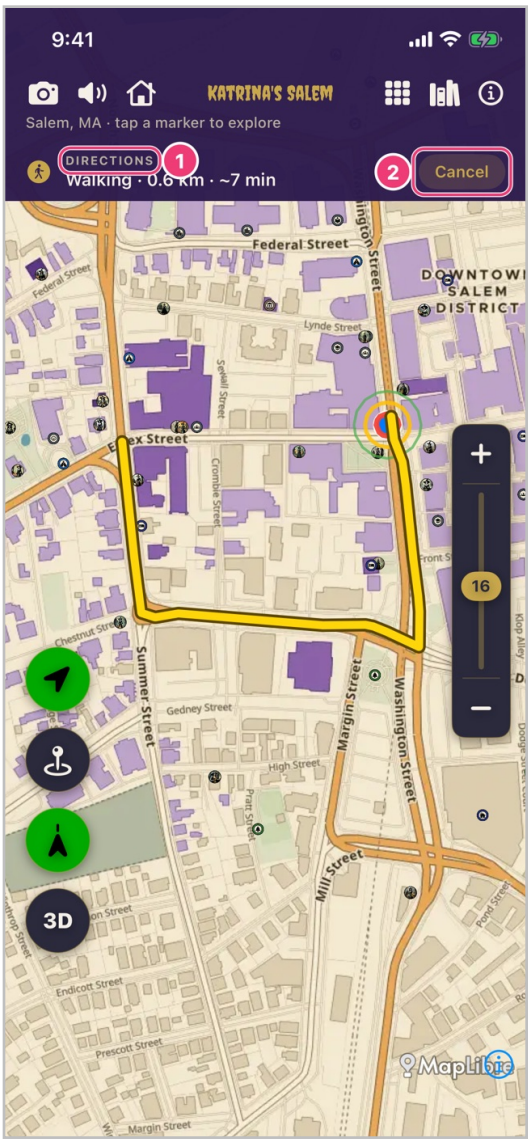

Open a card from a marker, a Find result, the NOW NARRATING bar, a Collection ghost or a Witch Trials site. Every place has its picture, what kind of place it is, its story, and ways to hear it or walk there.

1. **Back** — Return to where you opened the card.
2. **Favorite** — Star this place; it appears under Find → Favorites.
3. **Directions** — Walking directions to this place, drawn on the map (3.10).
4. **Listen** — Hear this place's story now — even inside its two quiet hours. While it plays, the button becomes Stop.
5. **Phone** — Call the place (when it has a number) — this leaves the guide for Phone.
6. **Website** — Open the place's website (when it has one) — in Safari.
7. **Handle** — Drag to make the card larger or smaller.

3.10 Walking directions

Tap Directions on a card: the route is drawn on the map and the DIRECTIONS bar shows the walk.

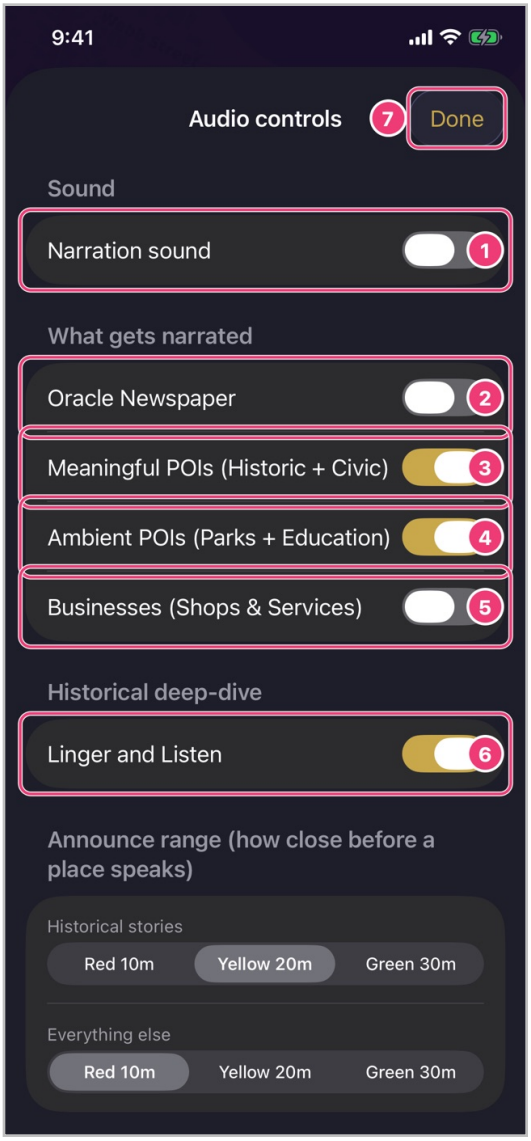

1. **DIRECTIONS** — The walk: "Walking · 0.6 km · ~7 min".
2. **Cancel** — Clear the route.

- **The route** — From your position to the place — or, before your iPhone has a position, from the centre of the map.
- **Walk it for me** — With directions on the map and no tour running, Menu → Simulate Walk walks you there.

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.11 Audio controls

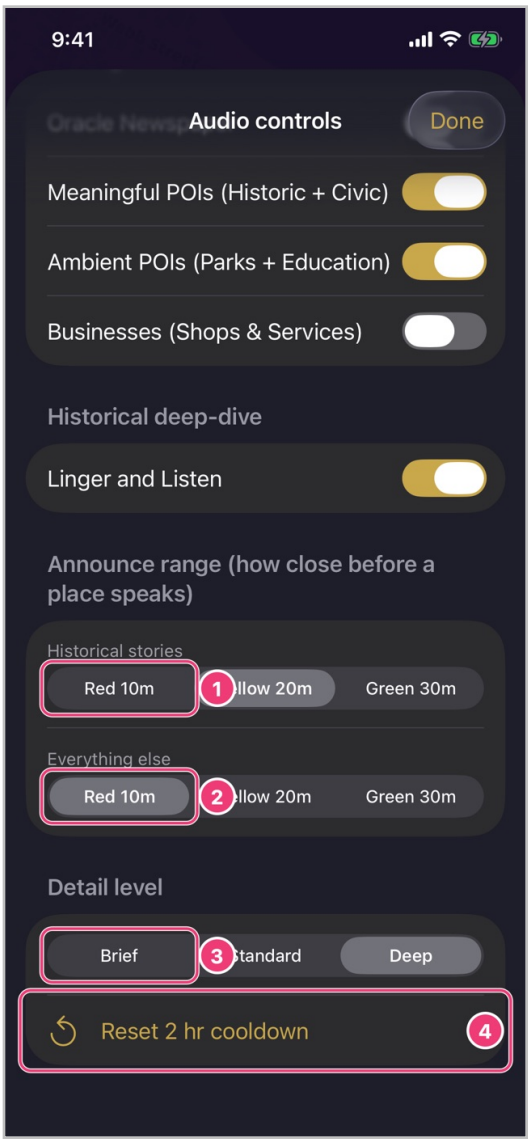

The speaker icon in the top bar opens Audio controls. Changes apply at once; the starting values are shown.

1. **Narration sound** — Every voice on or off. On at first.
2. **Oracle Newspaper** — Off at first. In this edition of the app it has no audible effect.
3. **Meaningful POIs (Historic + Civic)** — On at first.
4. **Ambient POIs (Parks + Education)** — On at first.
5. **Businesses (Shops & Services)** — Off at first. Turn on to hear shops and services.
6. **Linger and Listen** — On at first. In this edition of the app it has no audible effect.
7. **Done**

3.11 Audio controls — range and detail

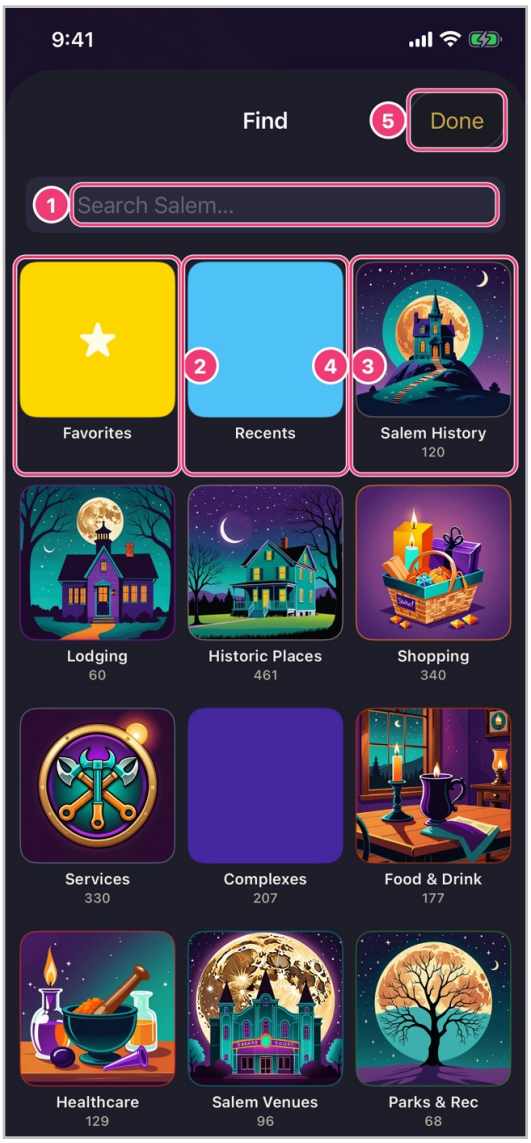

How close you must be before a place speaks, and how much it says.

1. **Historical stories** — Red 10 m (close) · Yellow 20 m · Green 30 m (far). Yellow 20 m at first.
2. **Everything else** — The same choice for every other place. Red 10 m at first.
3. **Detail level** — Brief · Standard · Deep. Deep at first.
4. **Reset 2 hr cooldown** — A place you heard stays quiet for two hours; this lets every place speak again ("N heard stamps cleared — everything may announce again"). It never changes your Collection.

3.12 Find

Menu → Find. Search Salem, or browse by kind of place.

1. **Search** — Type what you're after — "coffee", "restroom", "witch trials".
2. **Favorites** — Places you have starred. "No favorites yet — tap the star on any place's detail."
3. **Recents** — Places you heard on a walk or opened from the map.
4. **A tile** — A kind of place; the number is how many.
5. **Done** — Close Find.

3.12 Find — a tile

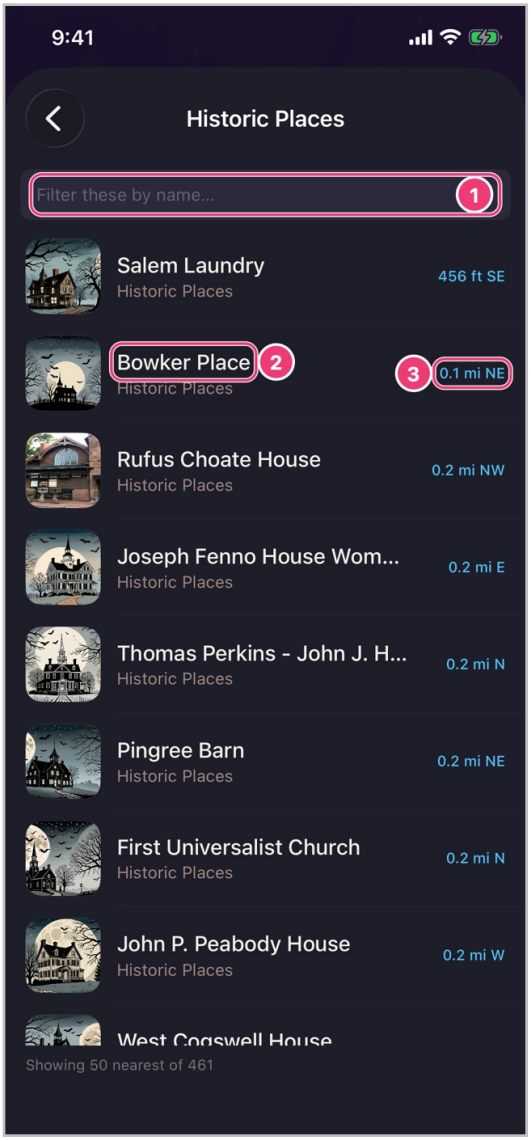

Inside a tile, its types — with All first.

1. **All** — Every place of this kind.
2. **A type** — Just this type; the number is how many.
3. **Back** — Back to the tiles.

3.12 Find — the results

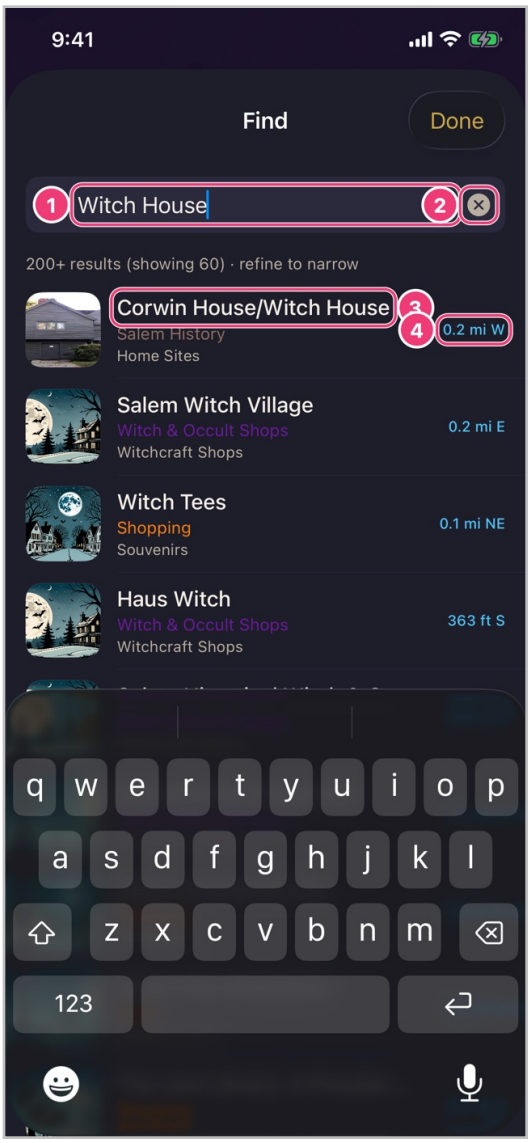

The nearest places come first — up to fifty ("Showing 50 nearest of 461").

1. **Filter these by name...** — Narrow the list.
2. **A result** — Tap: open its card. Touch and hold: see it on the map.
3. **Distance** — How far, and which way (a compass point).

3.12 Find — searching

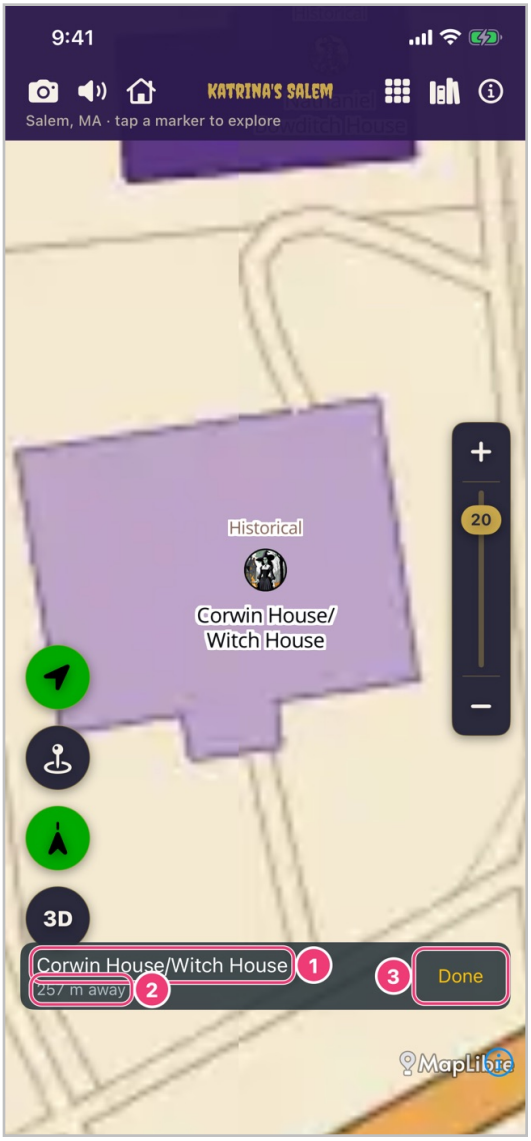

Results update as you type, nearest first.

1. **Search** — What you typed.
2. **Clear** — Clear the search.
3. **A result** — Tap: open its card. Touch and hold: see it on the map.
4. **Distance** — How far, and which way.

3.12 Find — on the map

Touch and hold a result to see it on the map. The bar at the bottom stays until you tap Done.

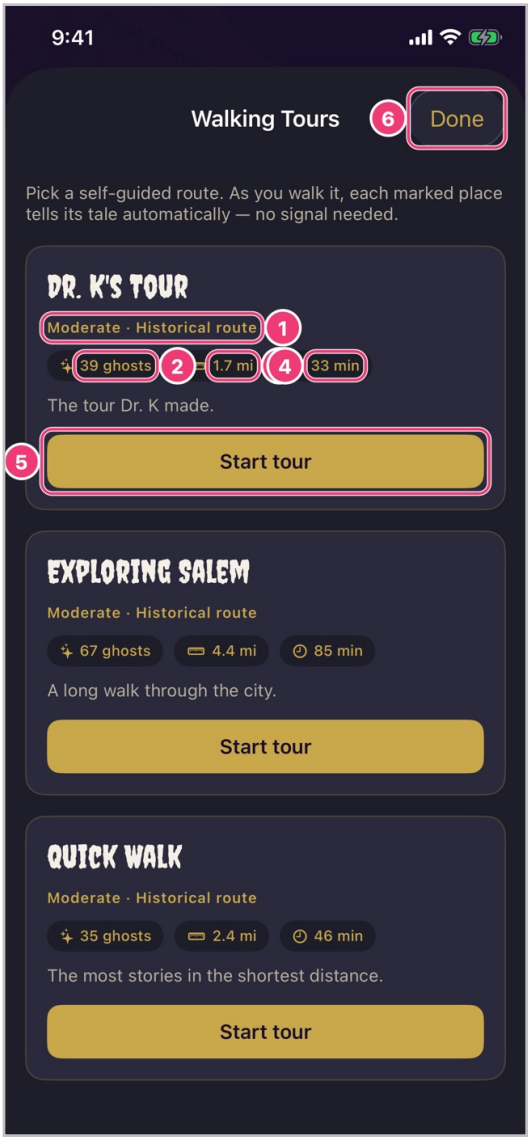

1. **The place** — The result you held, marked on the map.
2. **Distance** — How far — and, when your iPhone knows which way you face: "straight ahead", "to your left", "to your right" or "behind you".
3. **Done** — Back to the map, following you again.

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.13 Walking Tours

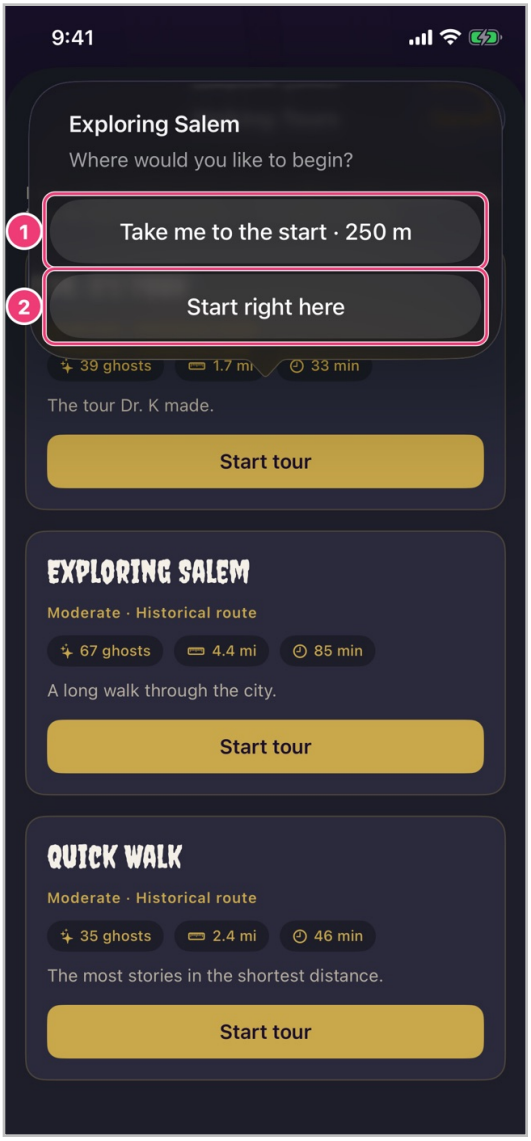

"Pick a self-guided route. As you walk it, each marked place tells its tale automatically — no signal needed."

1. **The tour** — Its name, difficulty and kind.
2. **Ghosts** — The historic places it passes.
3. **Distance**
4. **Time** — About how long the walk takes.
5. **Start tour** — Begin this tour; the guide asks how (next pages).
6. **Done** — Close the list.

3.13 Walking Tours — where to begin (in Salem)

In Salem, with the map following you, Start tour asks where to begin.

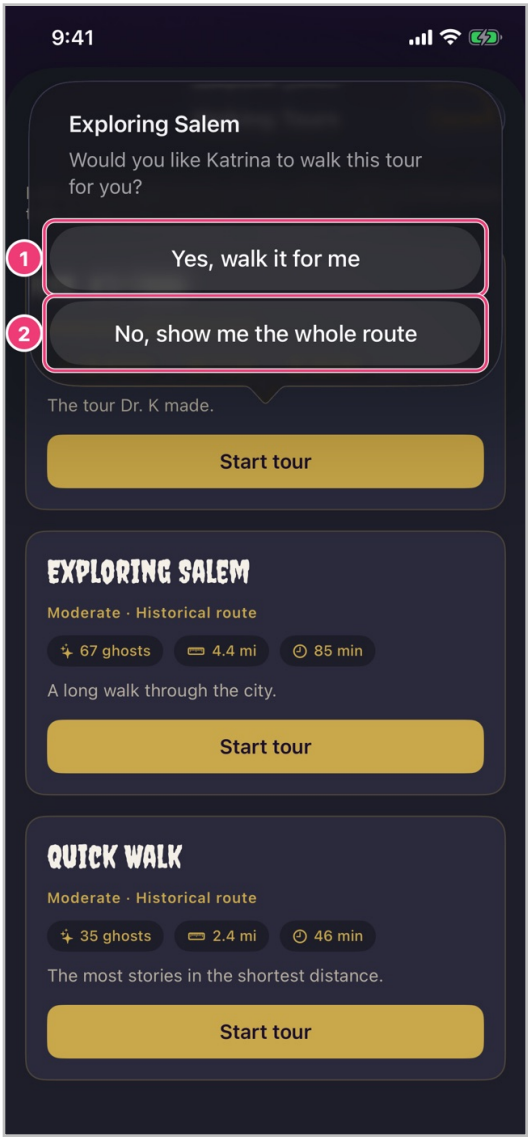

1. **Take me to the start · N** — Walking directions to the tour's first stop; the tour starts.
2. **Start right here** — Shown when you are already on the route: the tour starts where you stand.

- **Start at the closest point · N** — Shown instead when you are off the route: directions to its nearest point.
- **Cancel** — Nothing starts.

3.13 Walking Tours — away from Salem

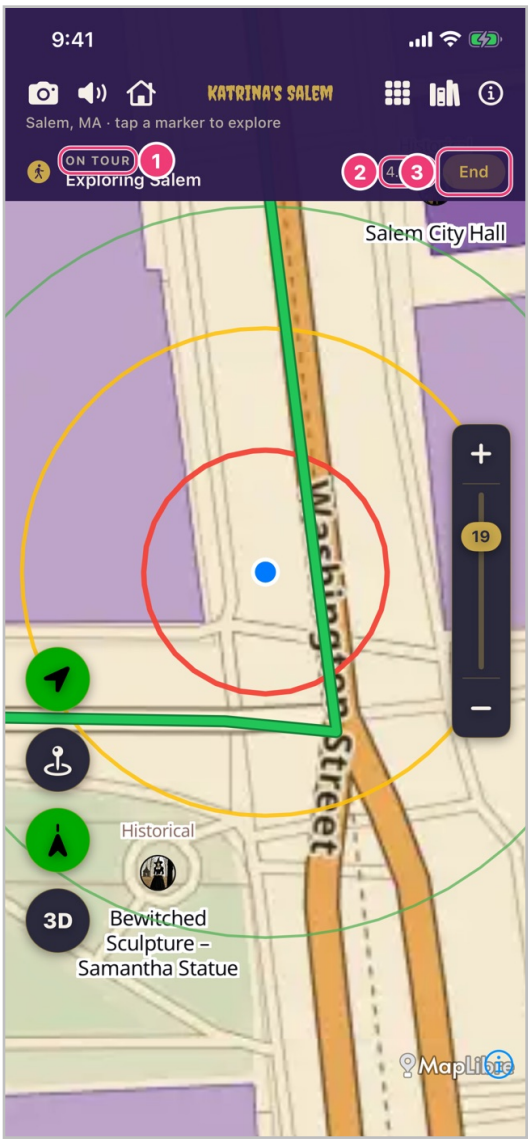

Away from Salem — or with GPS off — Start tour asks: "Would you like Katrina to walk this tour for you?"

1. **Yes, walk it for me** — The tour starts and a Simulate Walk sets off from its first stop ("Starting at the tour's first stop").
2. **No, show me the whole route** — The tour starts and its whole route is shown on the map.

3.13 Walking Tours — on a tour

While a tour runs, the ON TOUR bar sits under the top bar and the tour's route is drawn on the map.

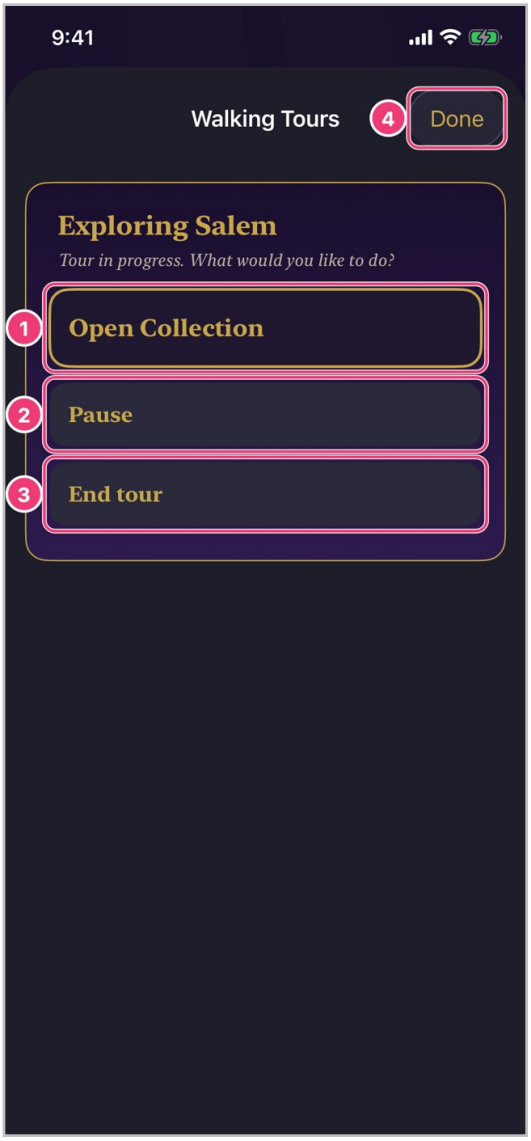

1. **On tour** — The tour you are walking.
2. **Length** — How long the tour is.
3. **End** — End the tour; your summary appears.

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.13 Walking Tours — the tour menu

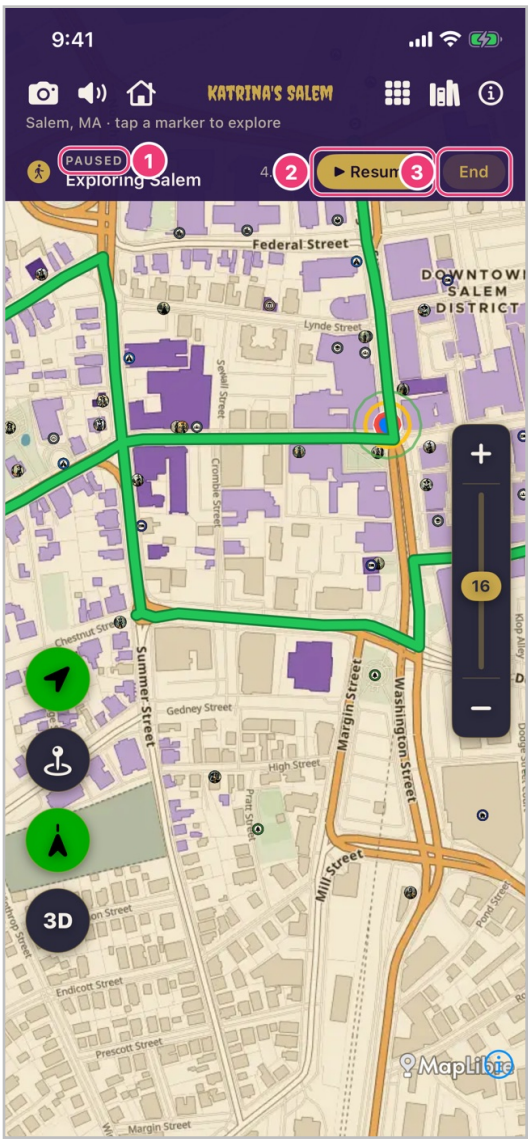

While a tour runs, Menu → Tours offers this tour's choices: "Tour in progress. What would you like to do?"

1. **Open Collection** — This tour's ghosts — heard, and still to come.
2. **Pause** — Pause the tour (next page).
3. **End tour** — End the tour; your summary appears.
4. **Done**

3.13 Walking Tours — paused

A paused tour shows PAUSED — and so does a tour remembered from your last visit.

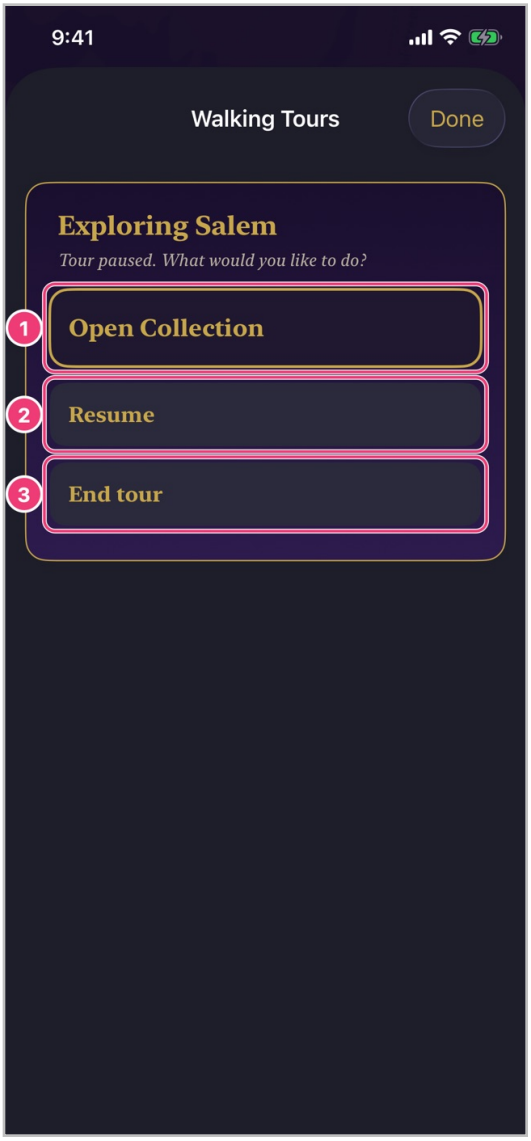

1. **Paused** — The tour, waiting for you.
2. **▶ Resume** — Carry on with the tour.
3. **End** — End the tour; your summary appears.

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.13 Walking Tours — the paused menu

Menu → Tours while a tour is paused: "Tour paused. What would you like to do?"

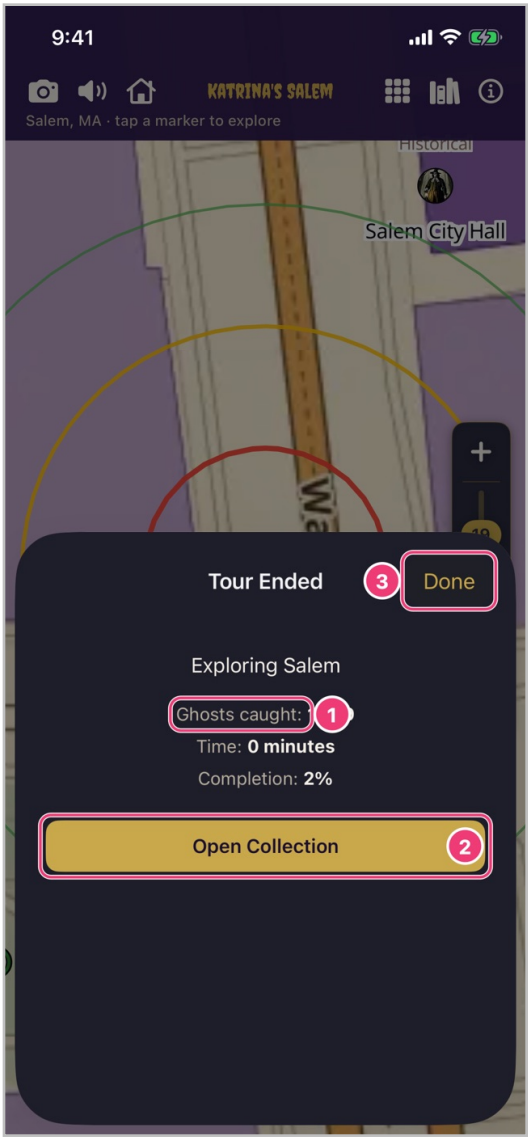

1. **Open Collection** — This tour's ghosts.
2. **Resume** — Carry on with the tour.
3. **End tour** — End the tour.

- **Continue from where you left off · Start the tour over** — Offered instead when the tour remembers where you reached.

3.13 Walking Tours — the summary

When a tour ends, its summary — "Tour Complete!" when you heard every ghost, "Tour Ended" otherwise.

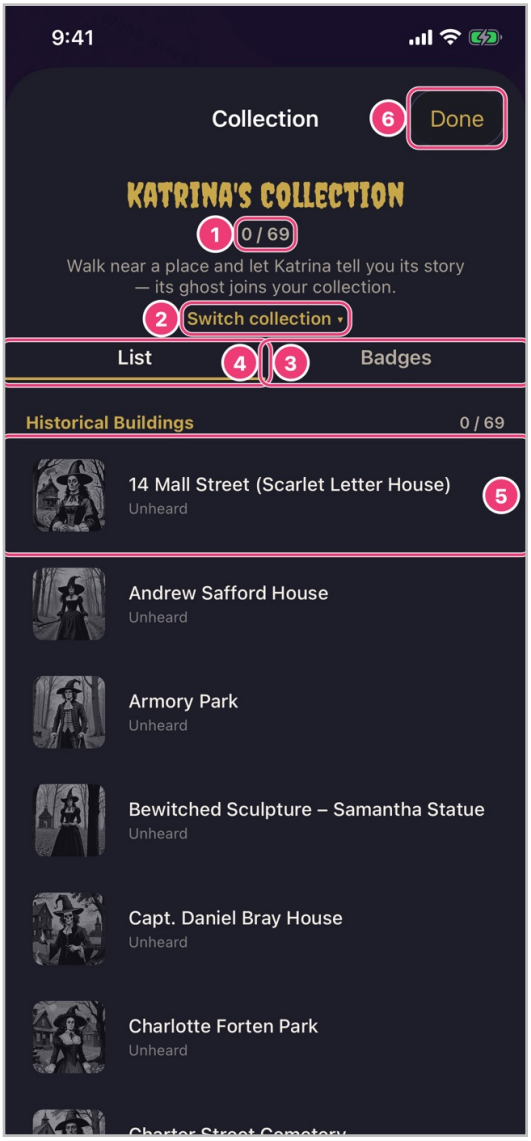

1. **Ghosts caught** — The tour's ghosts you heard, out of all of them.
   - **Time · Completion** — Your time on the tour, and how much of it you completed.
2. **Open Collection** — See this tour's ghosts.
3. **Done**

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

3.14 Katrina's Collection

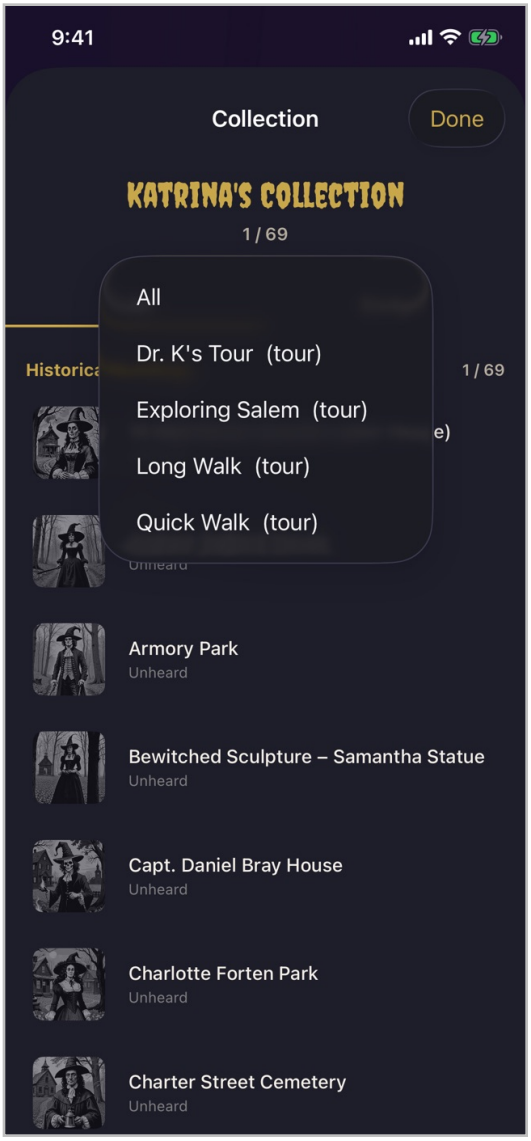

"Walk near a place and let Katrina tell you its story — its ghost joins your collection."

1. **Progress** — Ghosts heard, out of all of them.
2. **Switch collection** ▾ — One tour's ghosts, or All.
3. **List** — Every ghost by kind of place, marked Heard or Unheard.
4. **Badges** — Your ghosts as portraits.
5. **A ghost** — Tap to open the place's card.
6. **Done**

3.14 Katrina's Collection — switching

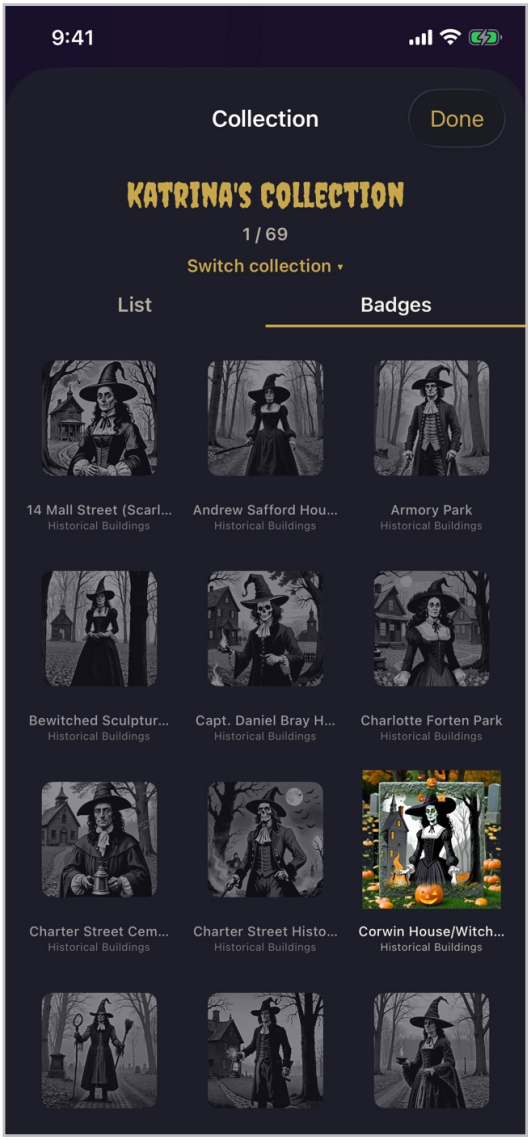

All shows every ghost; each tour has its own collection — the Exploring Salem tour has two, Exploring Salem and Long Walk.

- **All** — Every ghost in Salem — 69.
- **A tour** — That tour's ghosts: Dr. K's Tour · Exploring Salem · Long Walk · Quick Walk.

3.14 Katrina's Collection — Badges

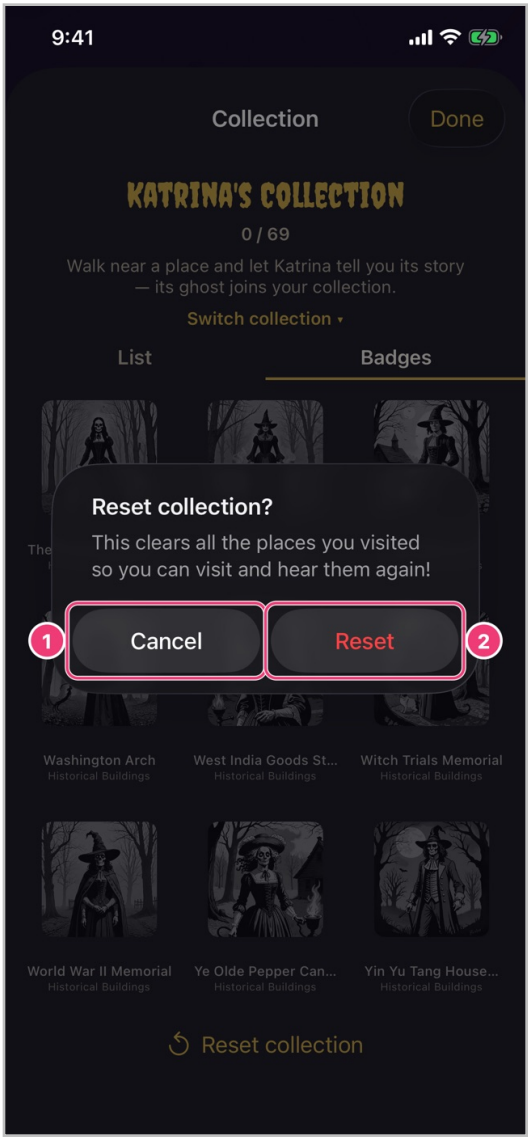

Ghosts you have heard show in colour; the rest wait in grey.

- **A ghost** — Coloured once its story has been heard.
- **Reset collection** — At the end of Badges: "This clears all the places you visited so you can visit and hear them again!" — Cancel or Reset.

3.14 Katrina's Collection — Reset collection

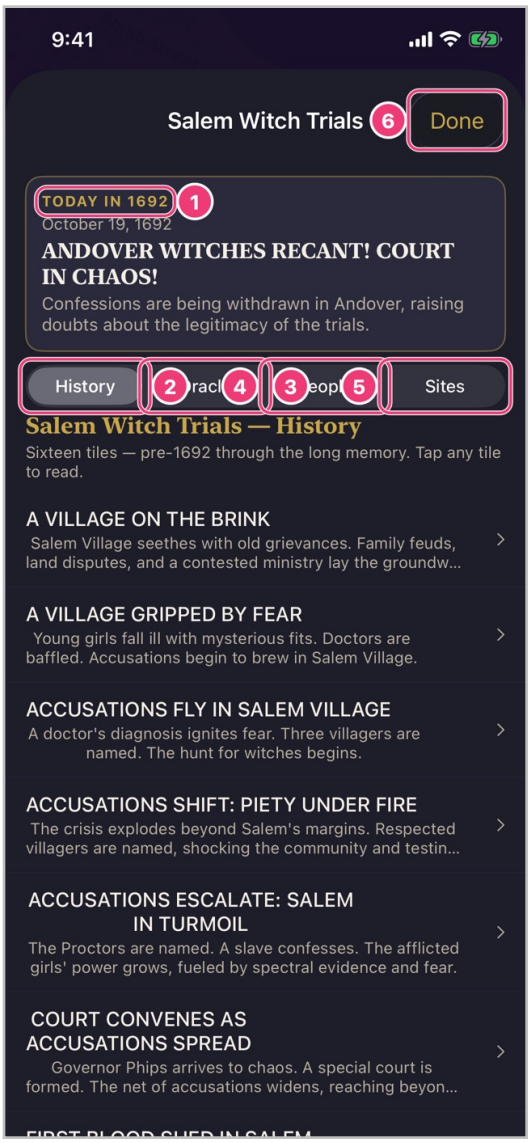

At the end of Badges, Reset collection asks first.

1. **Cancel** — Nothing changes.
2. **Reset** — Clears your Collection and every two-hour quiet, so places tell their stories again. It cannot be undone.

3.15 The Salem Witch Trials

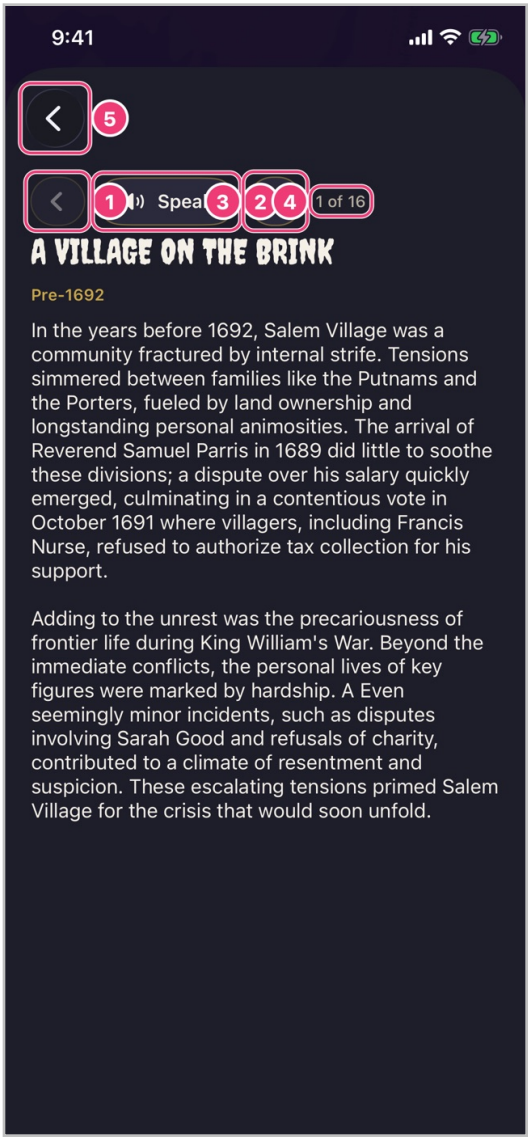

Menu → Witch Trials, or the welcome hub.

1. **Today in 1692** — The Oracle's dispatch for today's date in 1692 (or "Near this day in 1692"). Tap to read it.
2. **History** — Sixteen chapters.
3. **Oracle** — 202 dispatches, November 1691 – May 1693.
4. **People** — Forty-nine principal figures.
5. **Sites** — Historic sites, by era.
6. **Done**

3.15 The Salem Witch Trials — a page

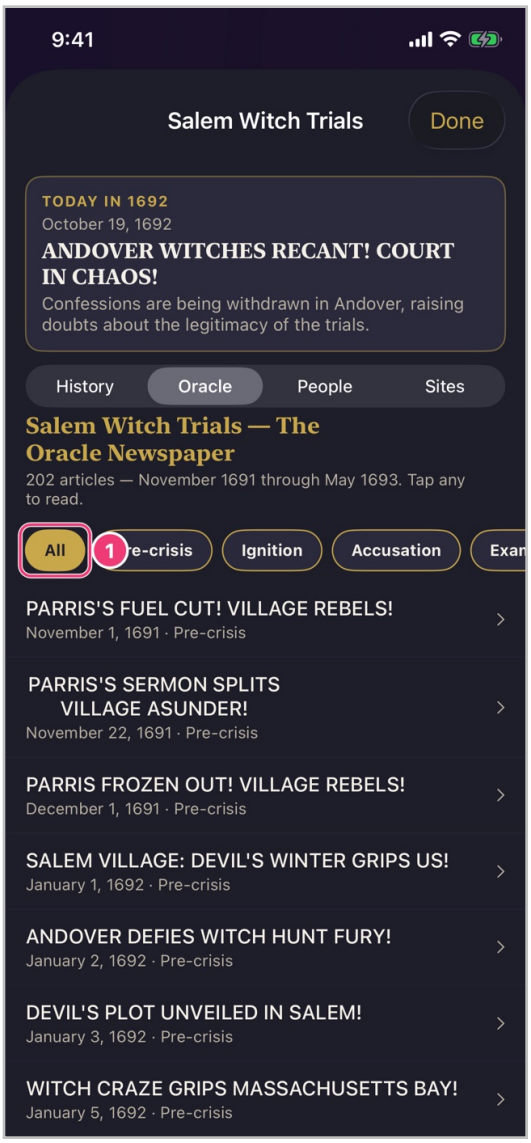

Every chapter, dispatch and biography opens on a page like this.

1. ‹ — The page before.
2. **Speak** — Hear the page; tap again to stop.
3. › — The page after.
4. **Where you are** — This page, out of all of them.
5. **Back** — Back to the library.

3.15 The Salem Witch Trials — the Oracle

Filter the dispatches by the phase of the crisis; tap one to read it.

1. **Phases** — All · Pre-crisis · Ignition · Accusation · Examinations · Court of O&T · Mass trials · Aftermath.

- **A dispatch** — Its headline, date and phase. Tap to read it.

3.15 The Salem Witch Trials — People

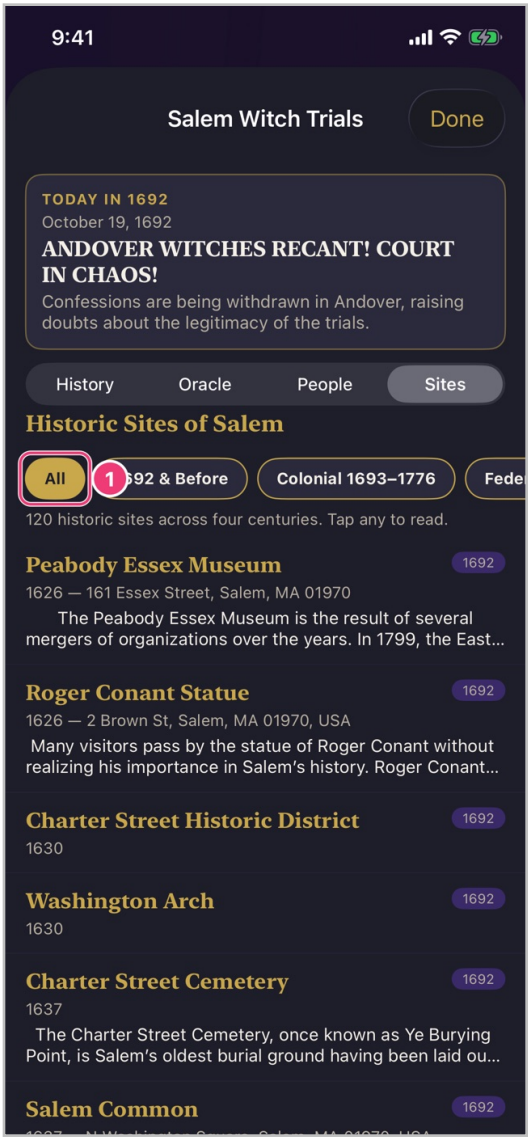

Forty-nine principal figures. Tap any name to read the biography.

- **A person** — Their role in 1692. Tap for the portrait, the outcome and the biography.

3.15 The Salem Witch Trials — Sites

Historic sites of Salem. Filter by era; tap a site to read about it.

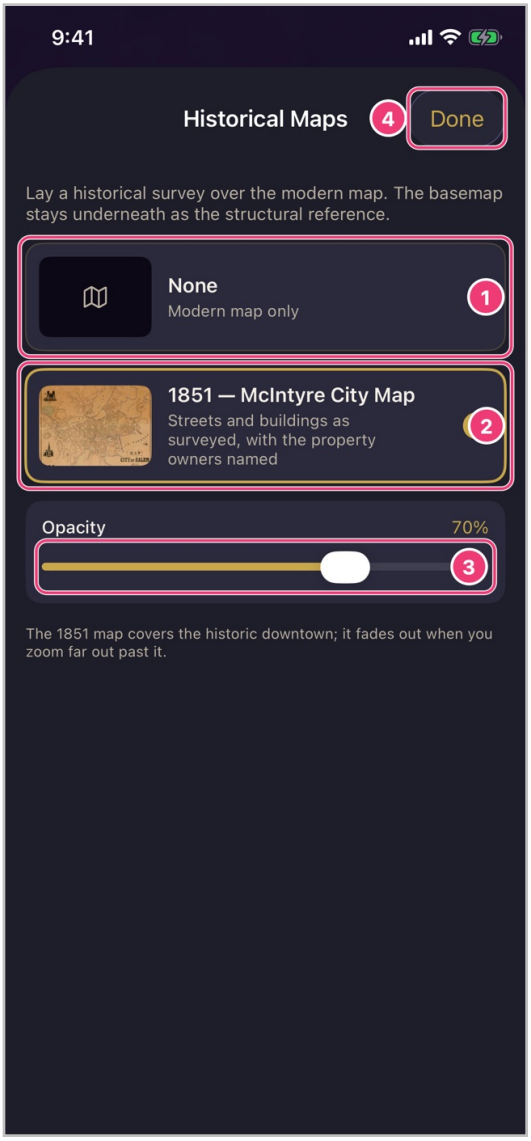

1. **Eras** — All · 1692 & Before · Colonial 1693–1776 · Federal 1777–1850.

- **A site** — Its page: when it was built, its address, Speak and its history.

3.16 Old Maps

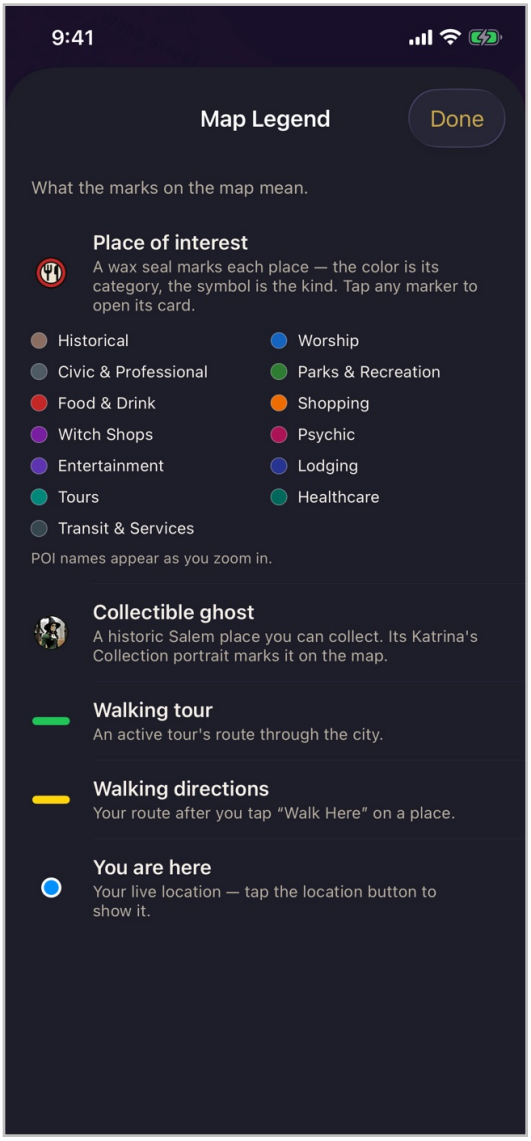

"Lay a historical survey over the modern map." The 1851 map covers the historic downtown; it fades out when you zoom far out.

1. **None** — The modern map only.
2. **1851 — McIntyre City Map** — Streets and buildings as surveyed, with the property owners named.
3. **Opacity** — How strongly the old map shows. 70% at first.
4. **Done**

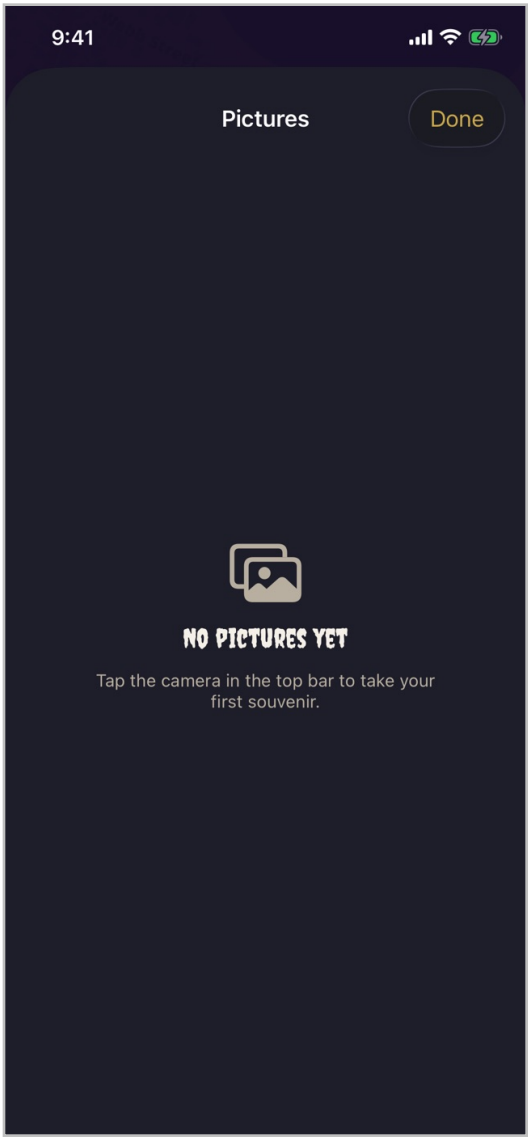

3.17 Map Legend

Menu → Legend: "What the marks on the map mean." — places of interest and their colours, collectible ghosts, walking tours, walking directions, and you. "POI names appear as you zoom in."

3.18 Pictures and the camera

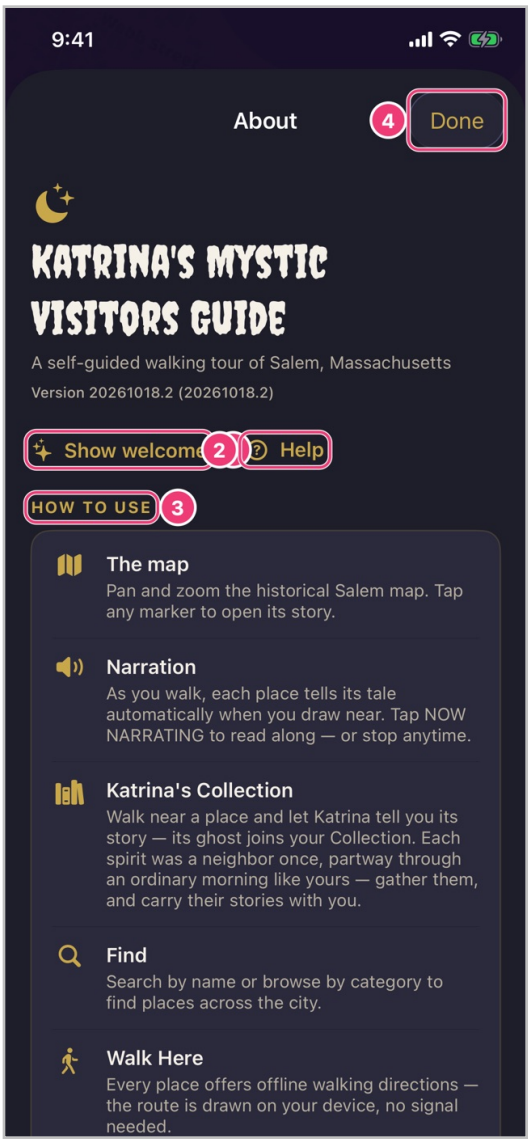

Menu → Pictures keeps your souvenir photos. Until you take one: "Tap the camera in the top bar to take your first souvenir."

- **The camera** — The camera icon in the top bar (on iPhones with a camera): the shutter takes the picture; Flip Camera switches cameras. "Your photo" follows — Done keeps it in Pictures, Discard throws it away.
- **A picture** — Tap to open it: Save to Photos (your iPhone asks once to let the guide add photos) · Effects · Delete.
- **Effect Studio** — "Souvenir effects for your photographs arrive here in a coming update."

3.19 About and Help

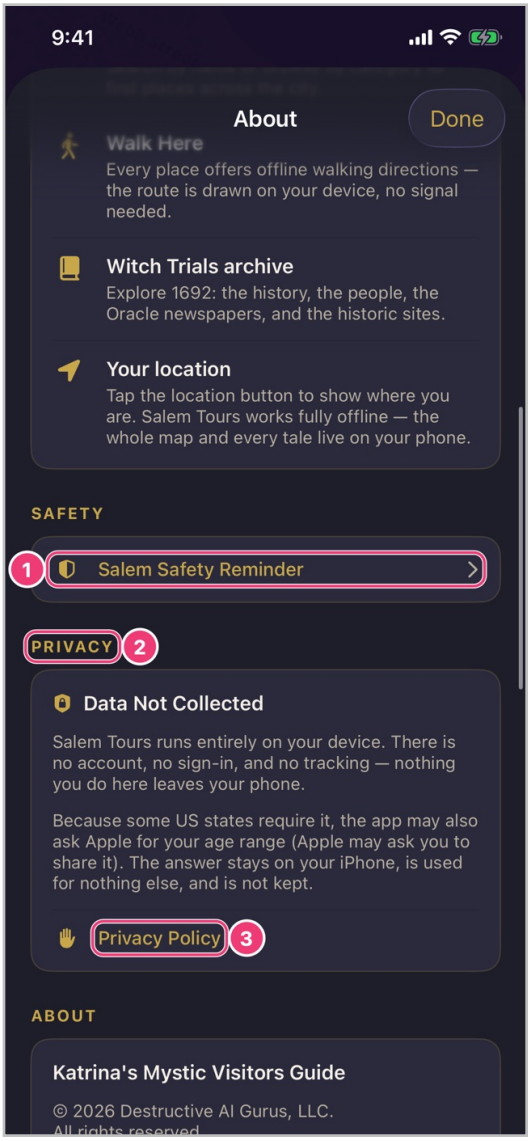

The ⓘ button in the top bar opens About.

1. **Show welcome** — Open the welcome hub again.
2. **Help** — Every feature, step by step (next pages).
3. **How to use** — The map, narration, the Collection, Find, walking directions, the Witch Trials archive and your location.
4. **Done**

3.19 About — safety, privacy, credits

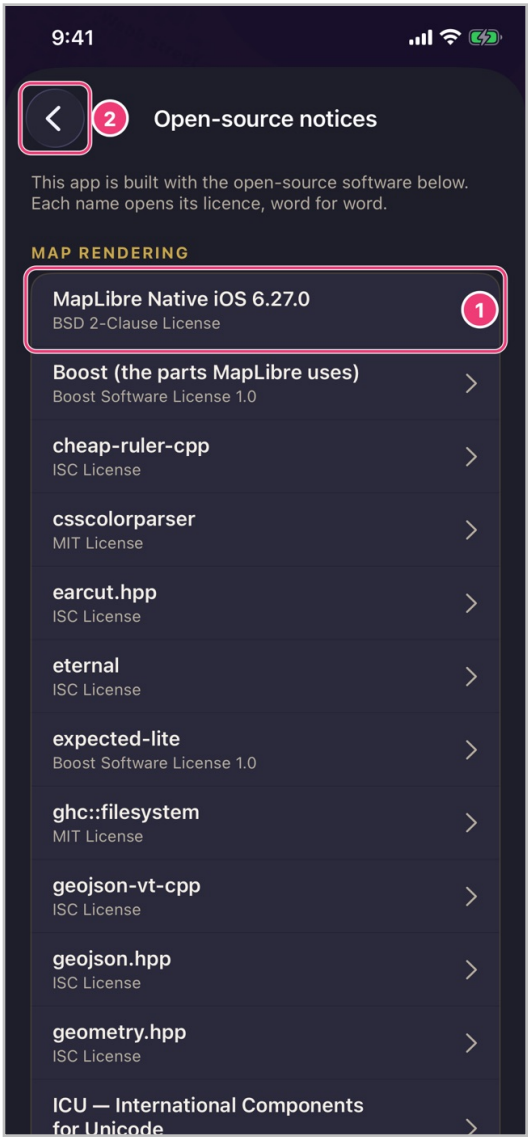

Further down: the safety reminder, the privacy note, the app's details, contact, the credits (5.3) and the open-source notices.

1. **Salem Safety Reminder** — Read the safety reminder again.
2. **Privacy** — "Data Not Collected" — what the guide does, and does not do, with your information (1.5).
3. **Privacy Policy** — Our privacy policy, on the web — in Safari.

3.19 About — Open-source notices

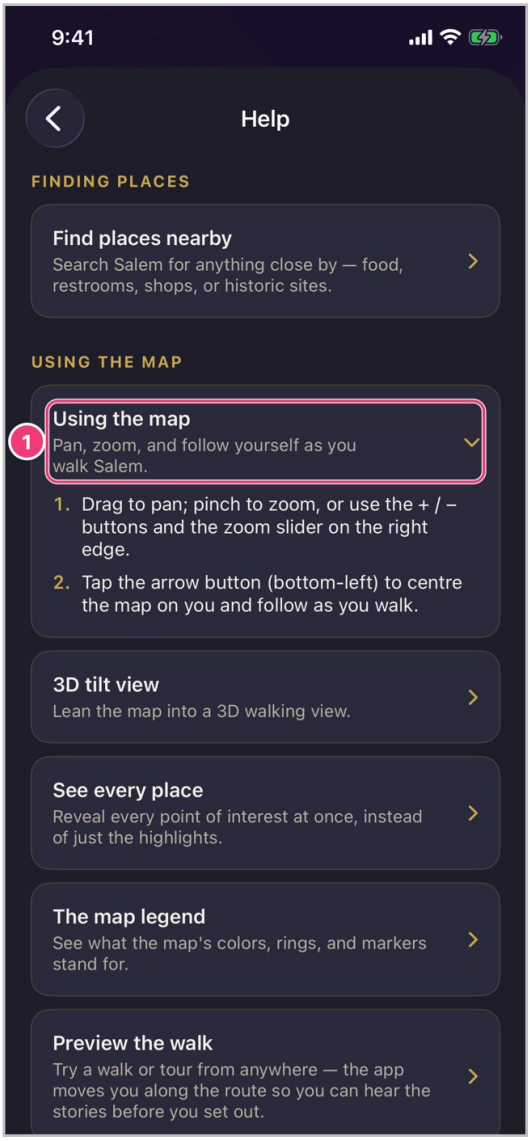

At the end of About: "This app is built with the open-source software below. Each name opens its licence, word for word." — 29 entries: MapLibre Native and the libraries it uses, and the two typefaces.

1. **A library** — Tap to read its licence, word for word.
2. **Back** — Back to About.

3.19 Help

Thirteen topics in five groups — Finding places · Using the map · Audio & narration · Tours & history · Places on the map. Tap a topic to see its steps; tap it again to close them.

1 **A topic** — Opens to show numbered steps.

3.20 Messages you may see

In the status line (for three seconds)

"Salem, MA · tap a marker to explore" — nothing new to say.

"No GPS fix yet — long-press Home to set" — you tapped Home with no home saved and no position yet.

"Home location saved" / "Home location cleared" — you held Home.

"Starting at the tour's first stop" — Yes, walk it for me has set off.

Questions and warnings

"Salem needs to know where you are" — the guide's explanation, before your iPhone asks for your location. Continue.

"Location Is Off" — "Katrina can't follow your walk — location access for this app is turned off. Allow “While Using the App” in Settings → Location." Open Settings · Not Now. (When you tap GPS.)

"Precise Location Is Off" — "Narration senses the sites you approach, which needs your precise location. Turn on “Precise Location” in Settings → Location." Open Settings · Not Now.

"Location Is Restricted" — "Location access is restricted on this device (Screen Time or a management profile), so the map can't follow your walk." Not Now.

"Reset collection?" — "This clears all the places you visited so you can visit and hear them again!" Cancel · Reset.

"Delete this picture?" — "Removes it from the app. Anything already saved to Photos stays in Photos."

"Photos access is off" — "Allow “Add Photos Only” for this app in Settings, then Save puts this picture in your photo library." Open Settings · Not Now.

On the screens

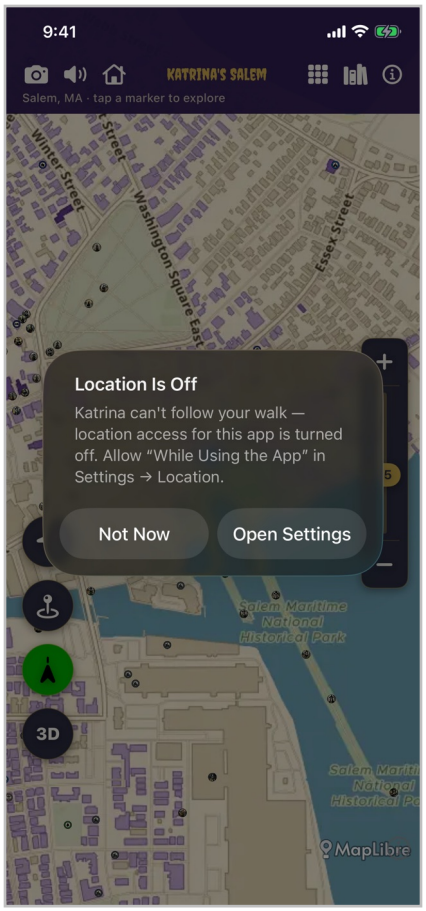

"N heard stamps cleared — everything may announce again" — after Reset 2 hr cooldown (Audio controls).

"Nothing here yet — POIs you hear on a walk or open from the map show up as Recents." — Find → Recents, before your first place.

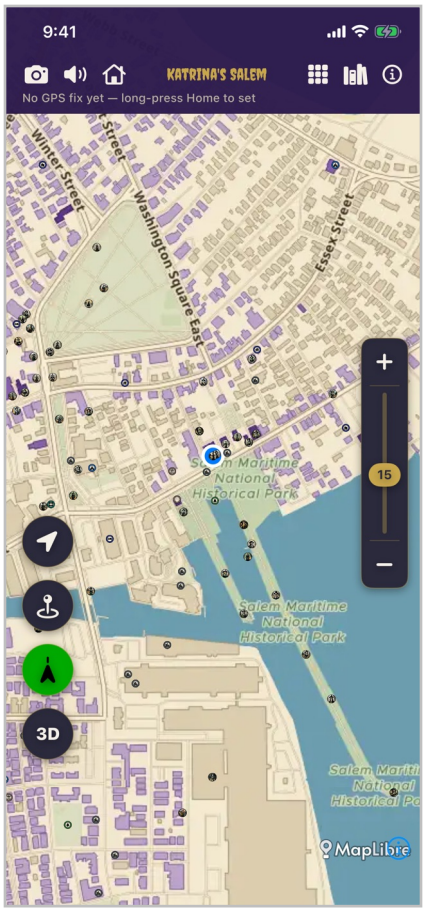

"No results found nearby" — Find found nothing for that choice.

Part 4 — Step-by-Step Demos

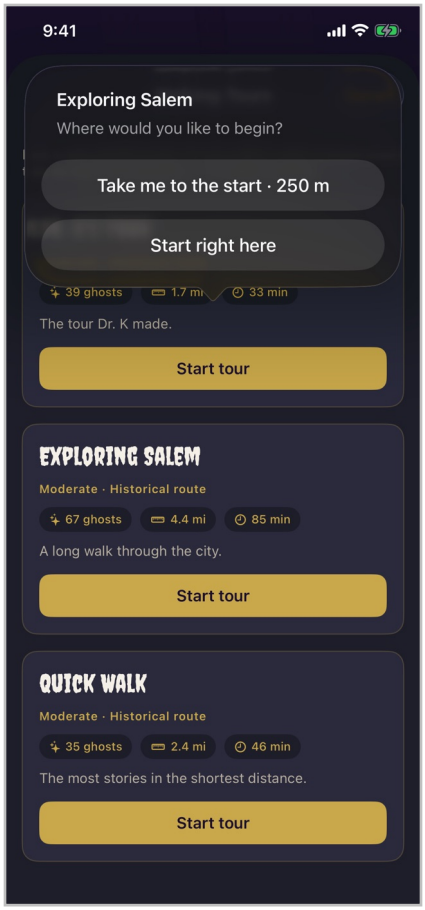

Follow along — each demo shows what to tap, and what you will see and hear.

4.1 Take a guided tour on foot

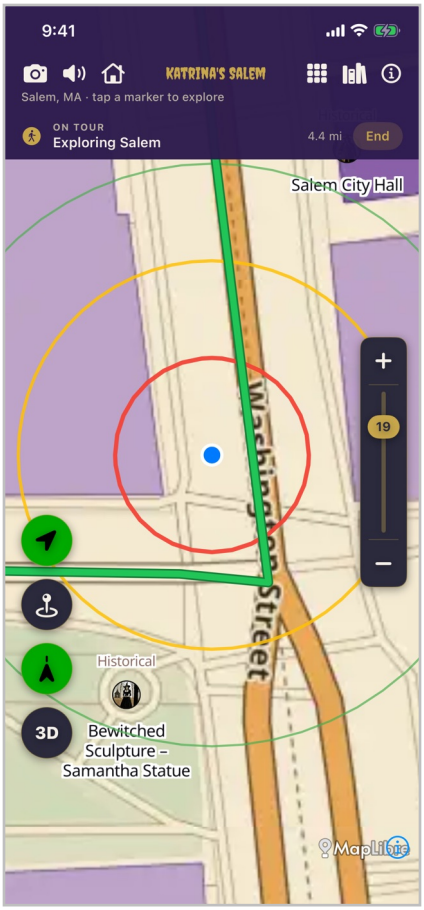

1. Stand in downtown Salem with the guide open. The GPS button is green when the map is following you.
2. Tap the 9-dot Menu, then Tours.
3. Pick a tour — check its ghosts, distance and time — and tap Start tour.
4. Choose Take me to the start (directions appear), Start right here, or Start at the closest point.
5. Follow the route. The ON TOUR bar shows the tour's name.
6. At each place the NOW NARRATING bar appears and the story plays. Tap the bar for the full card.
7. Need a break? Menu → Tours → Pause. Tap ▶ Resume on the tour bar to carry on.
8. Finish with End on the tour bar — your summary shows the ghosts you caught.

Tours → Start tour

Where to begin

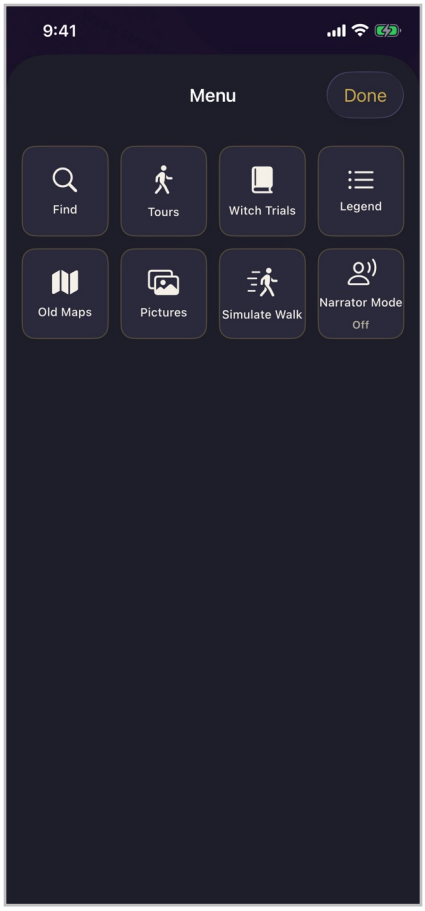

On tour

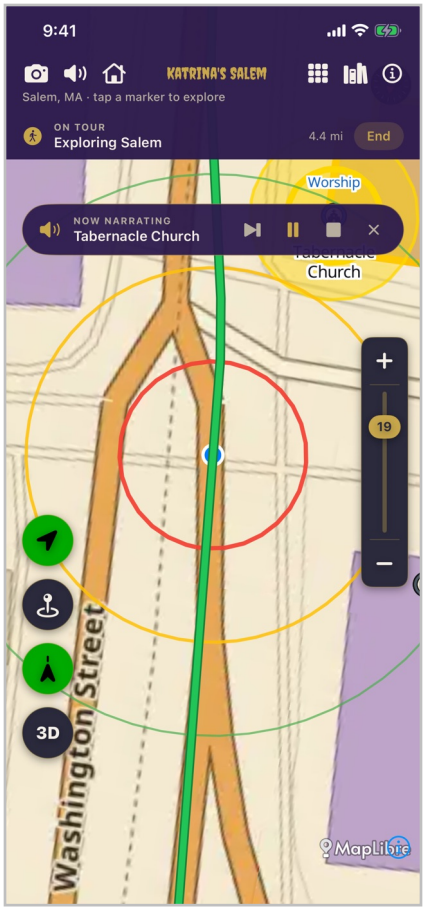

Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC. · Vector tile schema © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

4.2 Preview a tour from your sofa

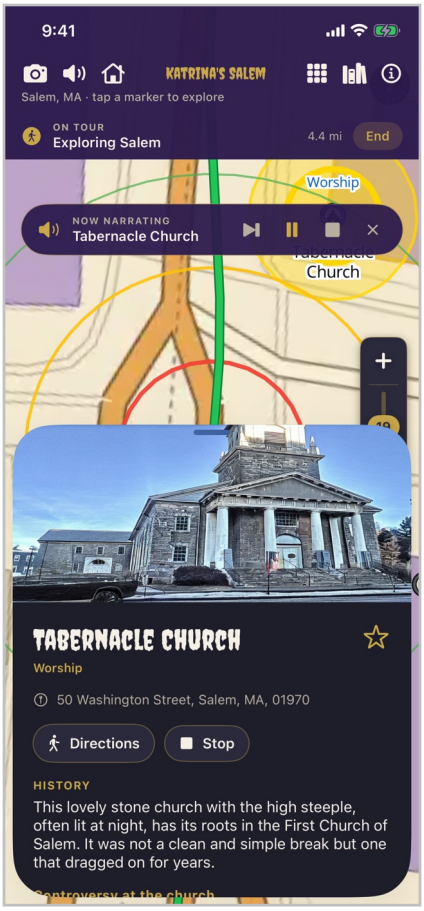

1. Open the Menu and tap Simulate Walk.
2. With no tour running, the Walking Tours list opens. Tap Start tour on the tour you want.
3. The walker sets off along the route at walking pace, and the map follows it.
4. As the walker reaches each place, its story plays and the NOW NARRATING bar shows it. Tap the bar to open the place's card.
5. Stop any time: Menu → Simulate Walk, or tap Home. End the tour from its bar when you are done.

Menu → Simulate Walk

A place speaks

Its card

4.3 Find a place and walk there

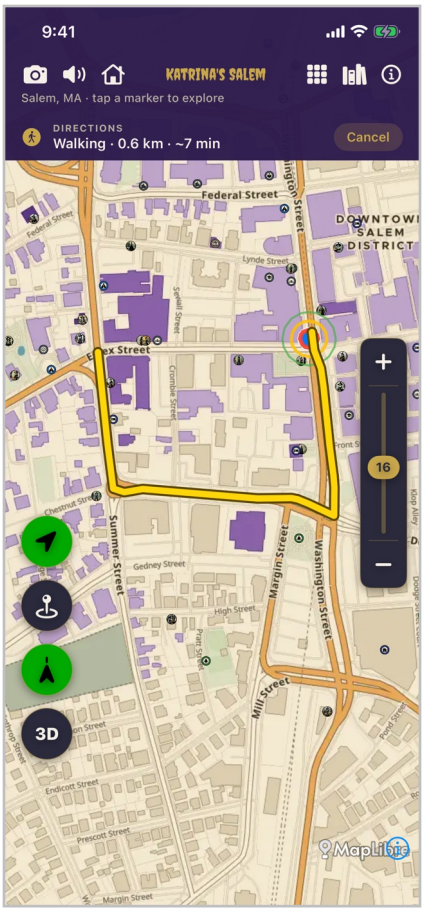

1. Menu → Find.
2. Tap a tile — for example Historic Places — then a type, or All. (Or type a name in "Search Salem…".)
3. The nearest places are listed with how far and which way. Tap one to open its card.
4. Tap the star (Favorite) to keep it in Find → Favorites.
5. Tap Directions. The route appears, with the DIRECTIONS bar: "Walking · … km · ~… min".
6. Walk it — or Menu → Simulate Walk to be walked there. Tap Cancel on the bar to clear the route.

Historic Places

4.4 Read and hear today's Oracle

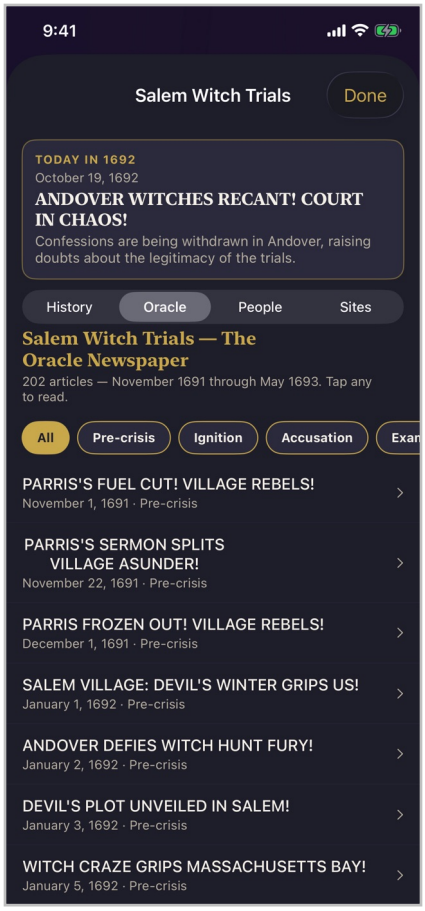

1. Menu → Witch Trials.
2. At the top, Today in 1692 shows what the Oracle reported on today's date in 1692 (or the nearest day). Tap it.
3. Read the page — the headline, the date and the story. Tap Speak to hear it.
4. Use ‹ and › to travel day by day through the crisis.
5. Or open Oracle to browse all 202 dispatches, filtered by phase.

Witch Trials

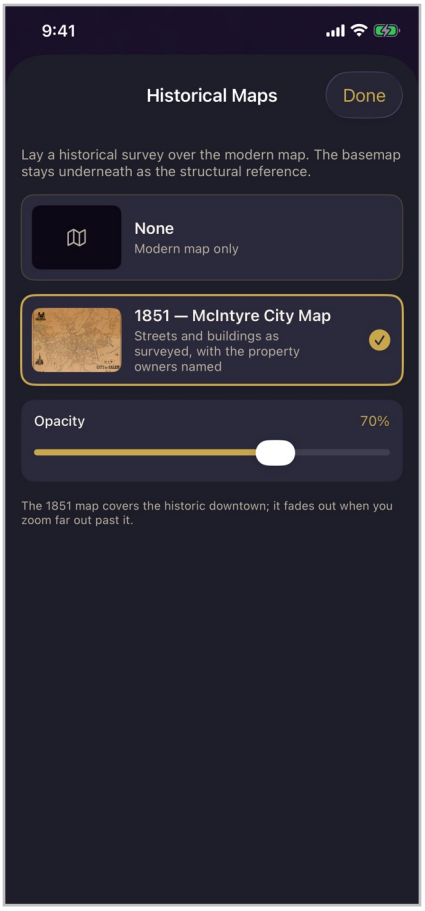

Today's dispatch

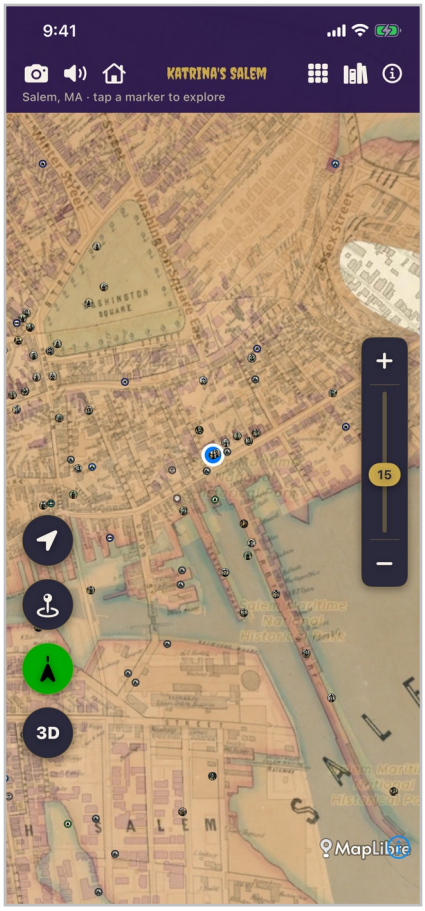

The Oracle

4.5 See Salem in 1851

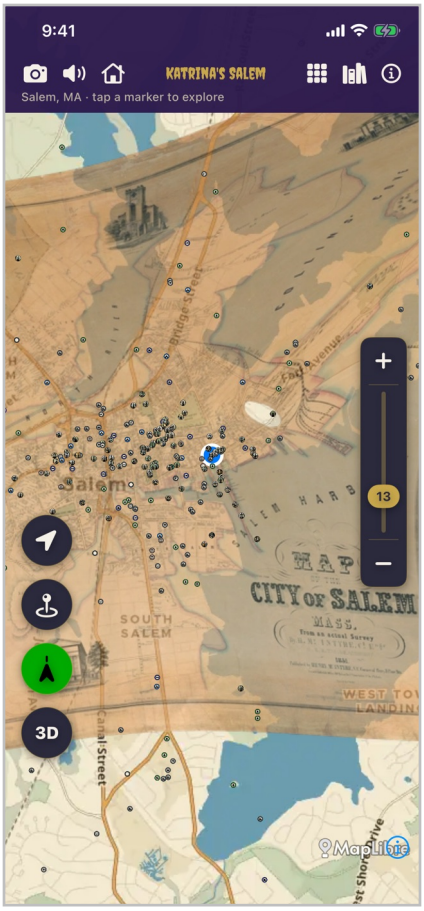

1. Menu → Old Maps.
2. Tap 1851 — McIntyre City Map. The old map appears over today's streets.
3. Slide Opacity to show it more or less strongly; tap Done.
4. Zoom out to see the 1851 harbour and wharves; it fades out when you zoom far out.
5. Walk, tour and listen as usual. To return: Menu → Old Maps → None.

Old Maps

Close up

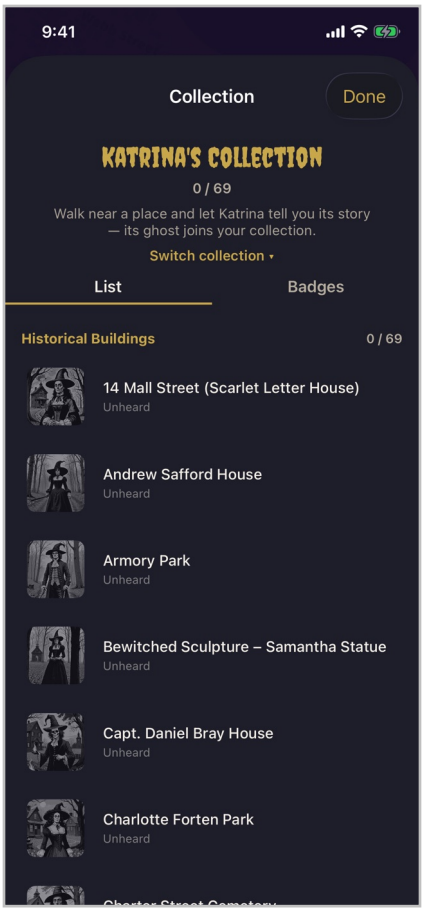

Zoomed out

Leventhal Map & Education Center at the Boston Public Library.

4.6 Catch your first ghost

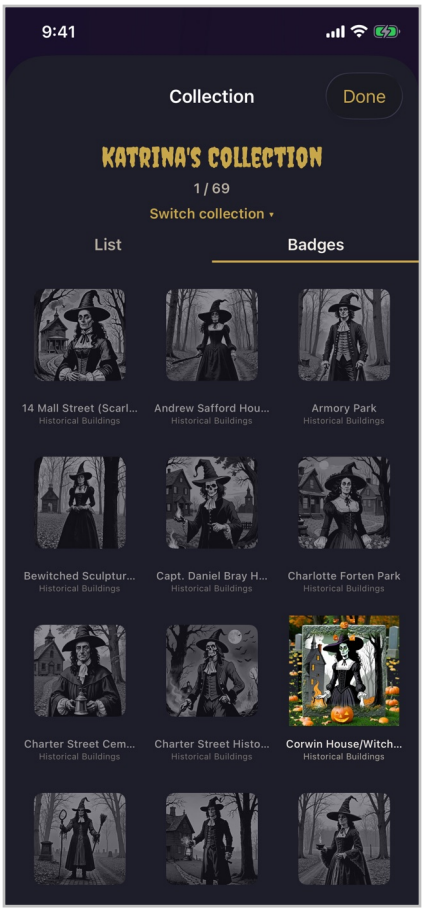

1. Walk — or Simulate Walk — near a historic place. Collectible ghosts are marked on the map by their portraits (Legend).
2. Let its story play. The ghost is now yours.
3. Tap the books icon. In Badges your ghost is in colour; the rest wait in grey.
4. Switch collection ▾ shows one tour's ghosts, or All.

The Collection

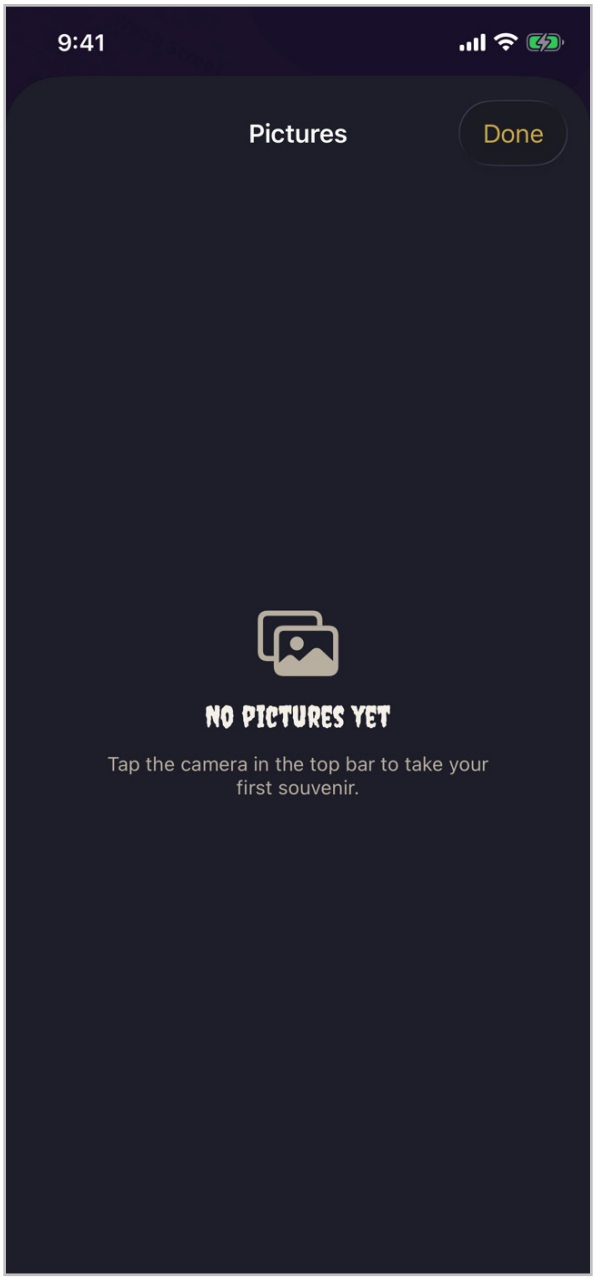

Switch collection

Badges

4.7 Take a souvenir photo

1. Tap the camera in the top bar (on an iPhone with a camera).
2. Frame your shot and tap the shutter. Flip Camera switches between the cameras.
3. "Your photo" appears: Done keeps it, Discard throws it away.
4. Find it later in Menu → Pictures. Open it to Save to Photos — your iPhone asks once to let the guide add photos — or to delete it.

Part 5 — Help

When something does not seem right.

5.1 Troubleshooting

Nothing is talking — ① Turn the volume up (the Ring/Silent switch does not matter). ② Speaker icon → Audio controls: is Narration sound on? ③ Is the place's group on — Meaningful, Ambient, Businesses? ④ Is the GPS button green? ⑤ Did you hear the place in the last two hours? Audio controls → Reset 2 hr cooldown.

A shop never speaks — Businesses are off at first: Audio controls → Businesses. The Places button shows every place on the map.

Places speak too late, or too early — change the announce range: Red is closest, Green reaches furthest.

Stories are too long — set Detail level to Standard or Brief; or tap Skip on the NOW NARRATING bar.

The map keeps jumping back to me — tap GPS to stop following while you look around; tap it again to follow.

The GPS button is yellow — your iPhone's location for the guide is off or approximate. Tap GPS: the guide explains, and Open Settings takes you to Settings. Choose While Using the App, with Precise Location on.

My position is wrong or wobbly — check Precise Location is on. Tall buildings can bounce GPS; give it a moment.

It goes quiet when I lock my iPhone — while GPS follows you, a tour runs or a Simulate Walk walks, the guide keeps your screen on so it can keep listening for places. Lock your iPhone and a story already playing finishes, but new places wait until you open the guide again.

I am not in Salem — the guide opens on Salem. Use Simulate Walk to hear a tour, or touch and hold the map to put yourself anywhere in Salem.

5.2 Quick reference

Silence it now — Stop on the NOW NARRATING bar, or Narration sound in Audio controls.

Hear a place again — open its card → Listen.

Change what talks — the speaker icon → Audio controls.

Start a tour — Menu → Tours → Start tour.

Hear a tour without walking — Menu → Simulate Walk → pick a tour.

Find a place — Menu → Find (tiles or search).

Walk to a place — open its card → Directions.

See my ghosts — the books icon.

Read about 1692 — Menu → Witch Trials.

See Salem in 1851 — Menu → Old Maps → 1851.

Jump somewhere on the map — touch and hold the map.

Save my hotel — centre the map on it, then touch and hold Home.

Take a souvenir photo — the camera in the top bar.

5.3 Credits

In the app's own words (About → Credits & attribution):

Map data — Map data © OpenStreetMap contributors, licensed under ODbL 1.0 (opendatacommons.org/licenses/odbl/1-0/). Basemap rendered by Destructive AI Gurus, LLC.

Vector tile schema — © OpenMapTiles (openmaptiles.org), licensed CC BY 4.0.

1851 historical map — Reproduction courtesy of the Norman B. Leventhal Map & Education Center at the Boston Public Library.

Street and place data — Street and place data: U.S. Census Bureau.

AI Generation — Narration in this app is built from real voices — AI-simulated, with permission, from the narrators' own recordings. The illustrated artwork in this app is AI-generated. The Oracle newspapers and the 1692 history and people texts are AI-written, and some photographs have AI-widened edges.

Map rendering — MapLibre Native — © MapLibre contributors, MapTiler, Mapbox (BSD-2-Clause).

Display type — Creepster — © Font Diner (SIL Open Font License 1.1).

Map labels — Noto Sans — © Google (SIL Open Font License 1.1).

Open-source notices — every open-source library in the app, each with its licence, word for word (About → Open-source notices).
